B: Mugshot natural images, identification mode: FNIR(N, L+1, T) vs. most accurate (sensetime_004)

C: Evolution of accuracy for IDEMIA algorithms on three datasets 2018 – present

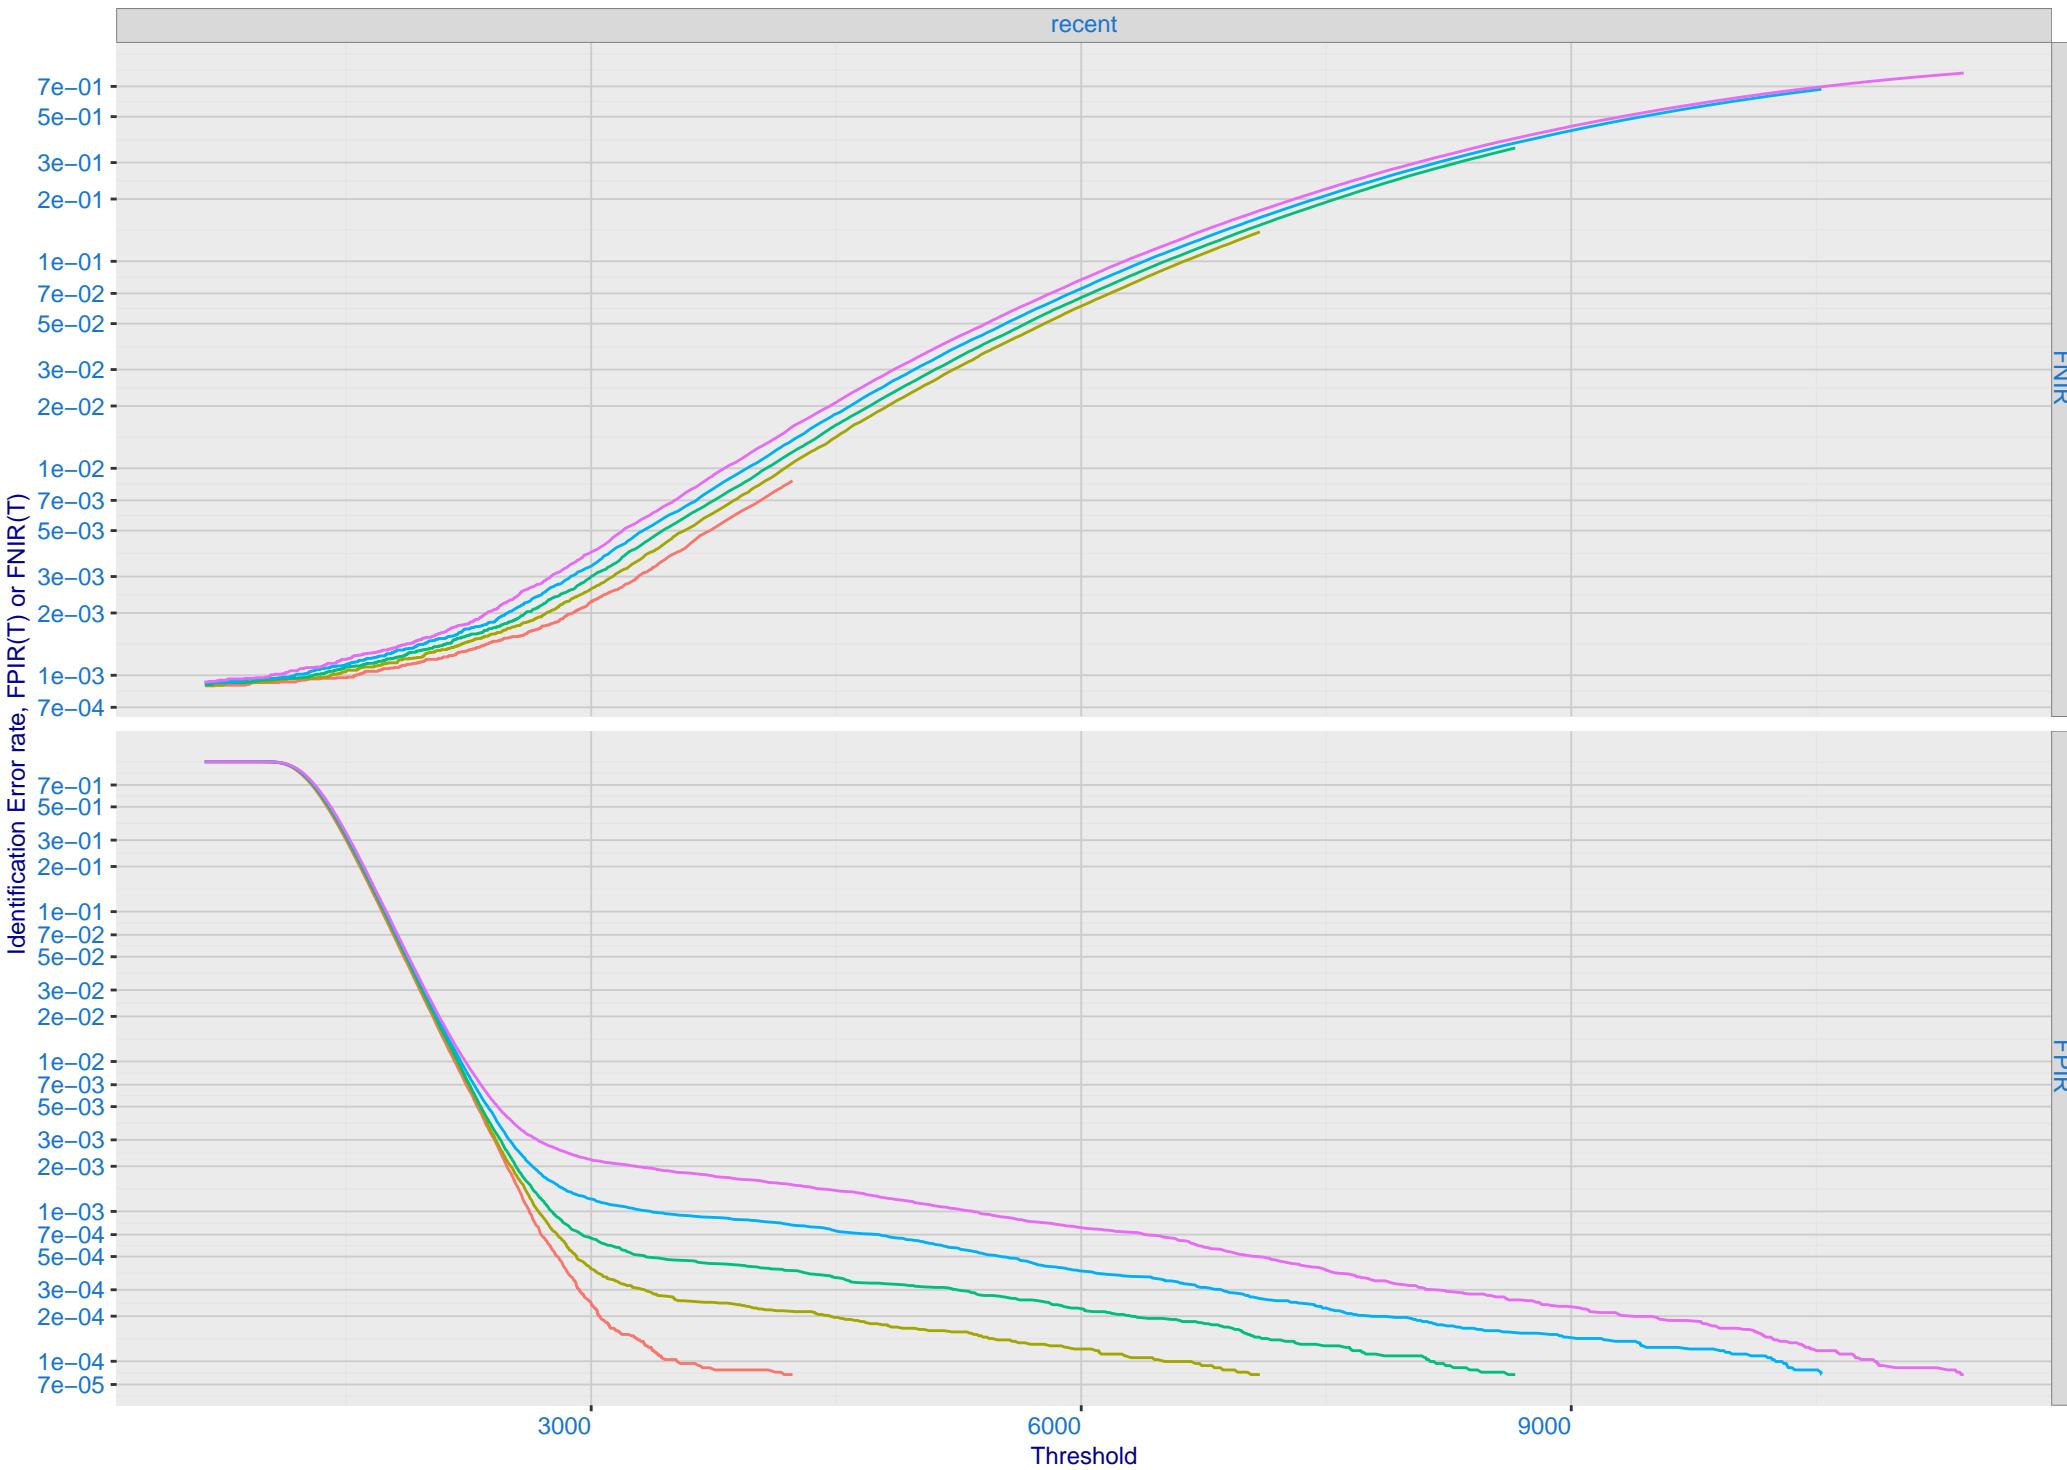

D: 1:N error tradeoff by dataset and enrollment type. N = 1600000 individuals

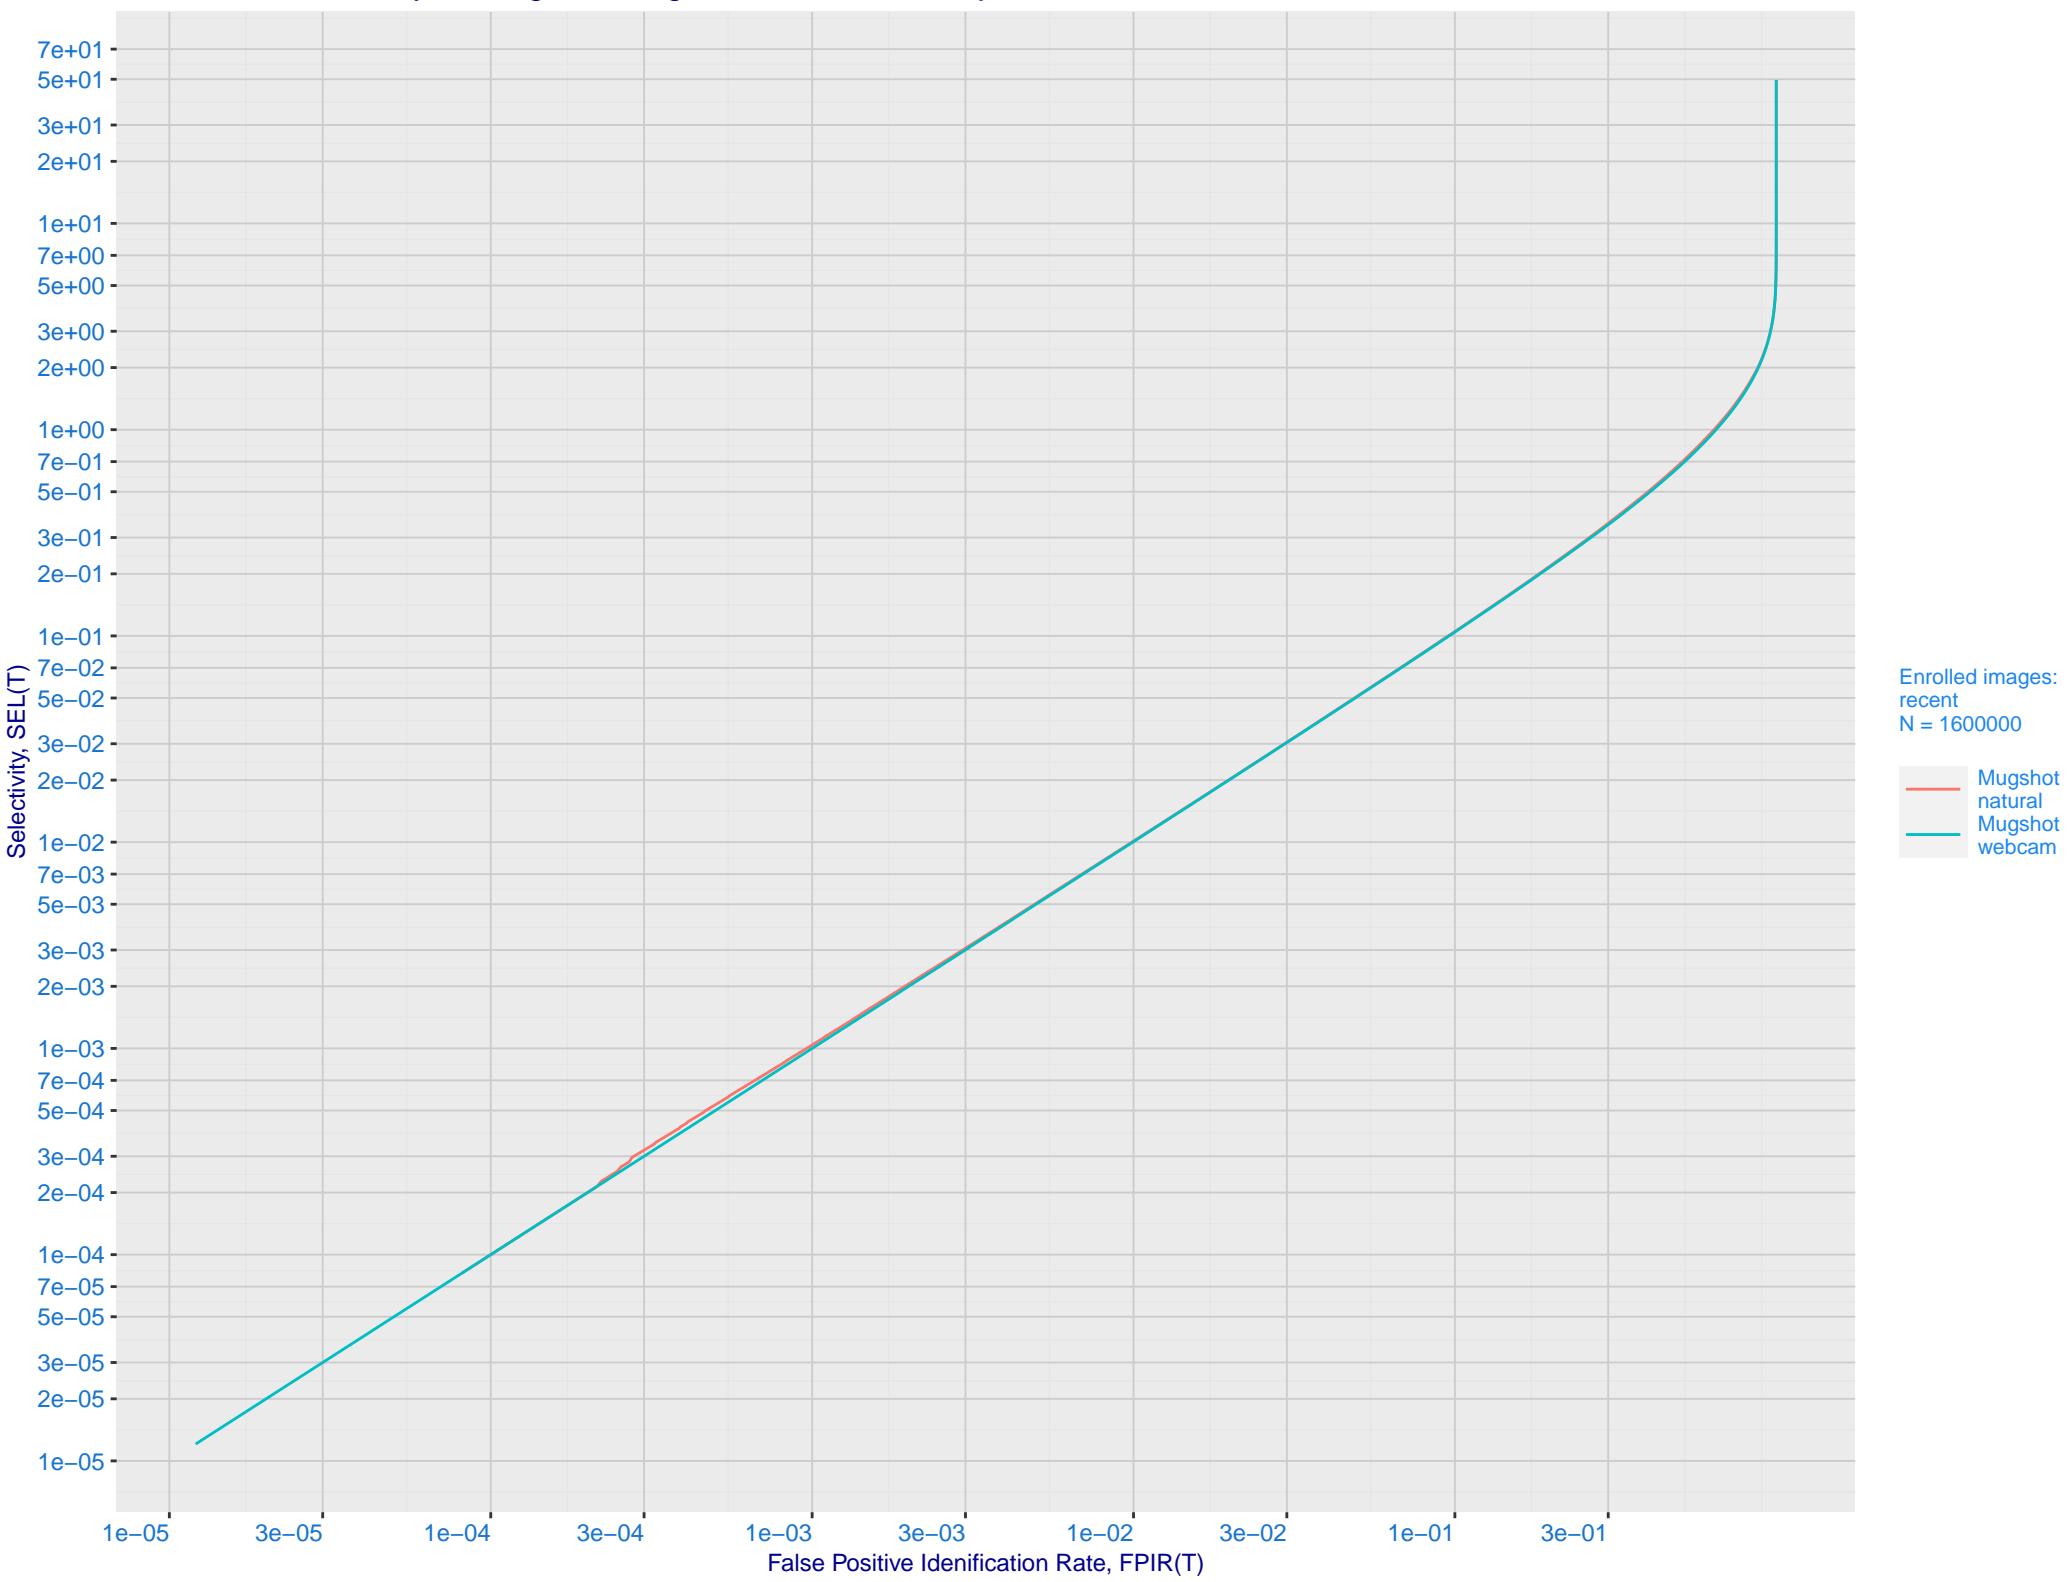

E: Dependence of error rates on T by number enrolled identities, N, for Mugshot natural images

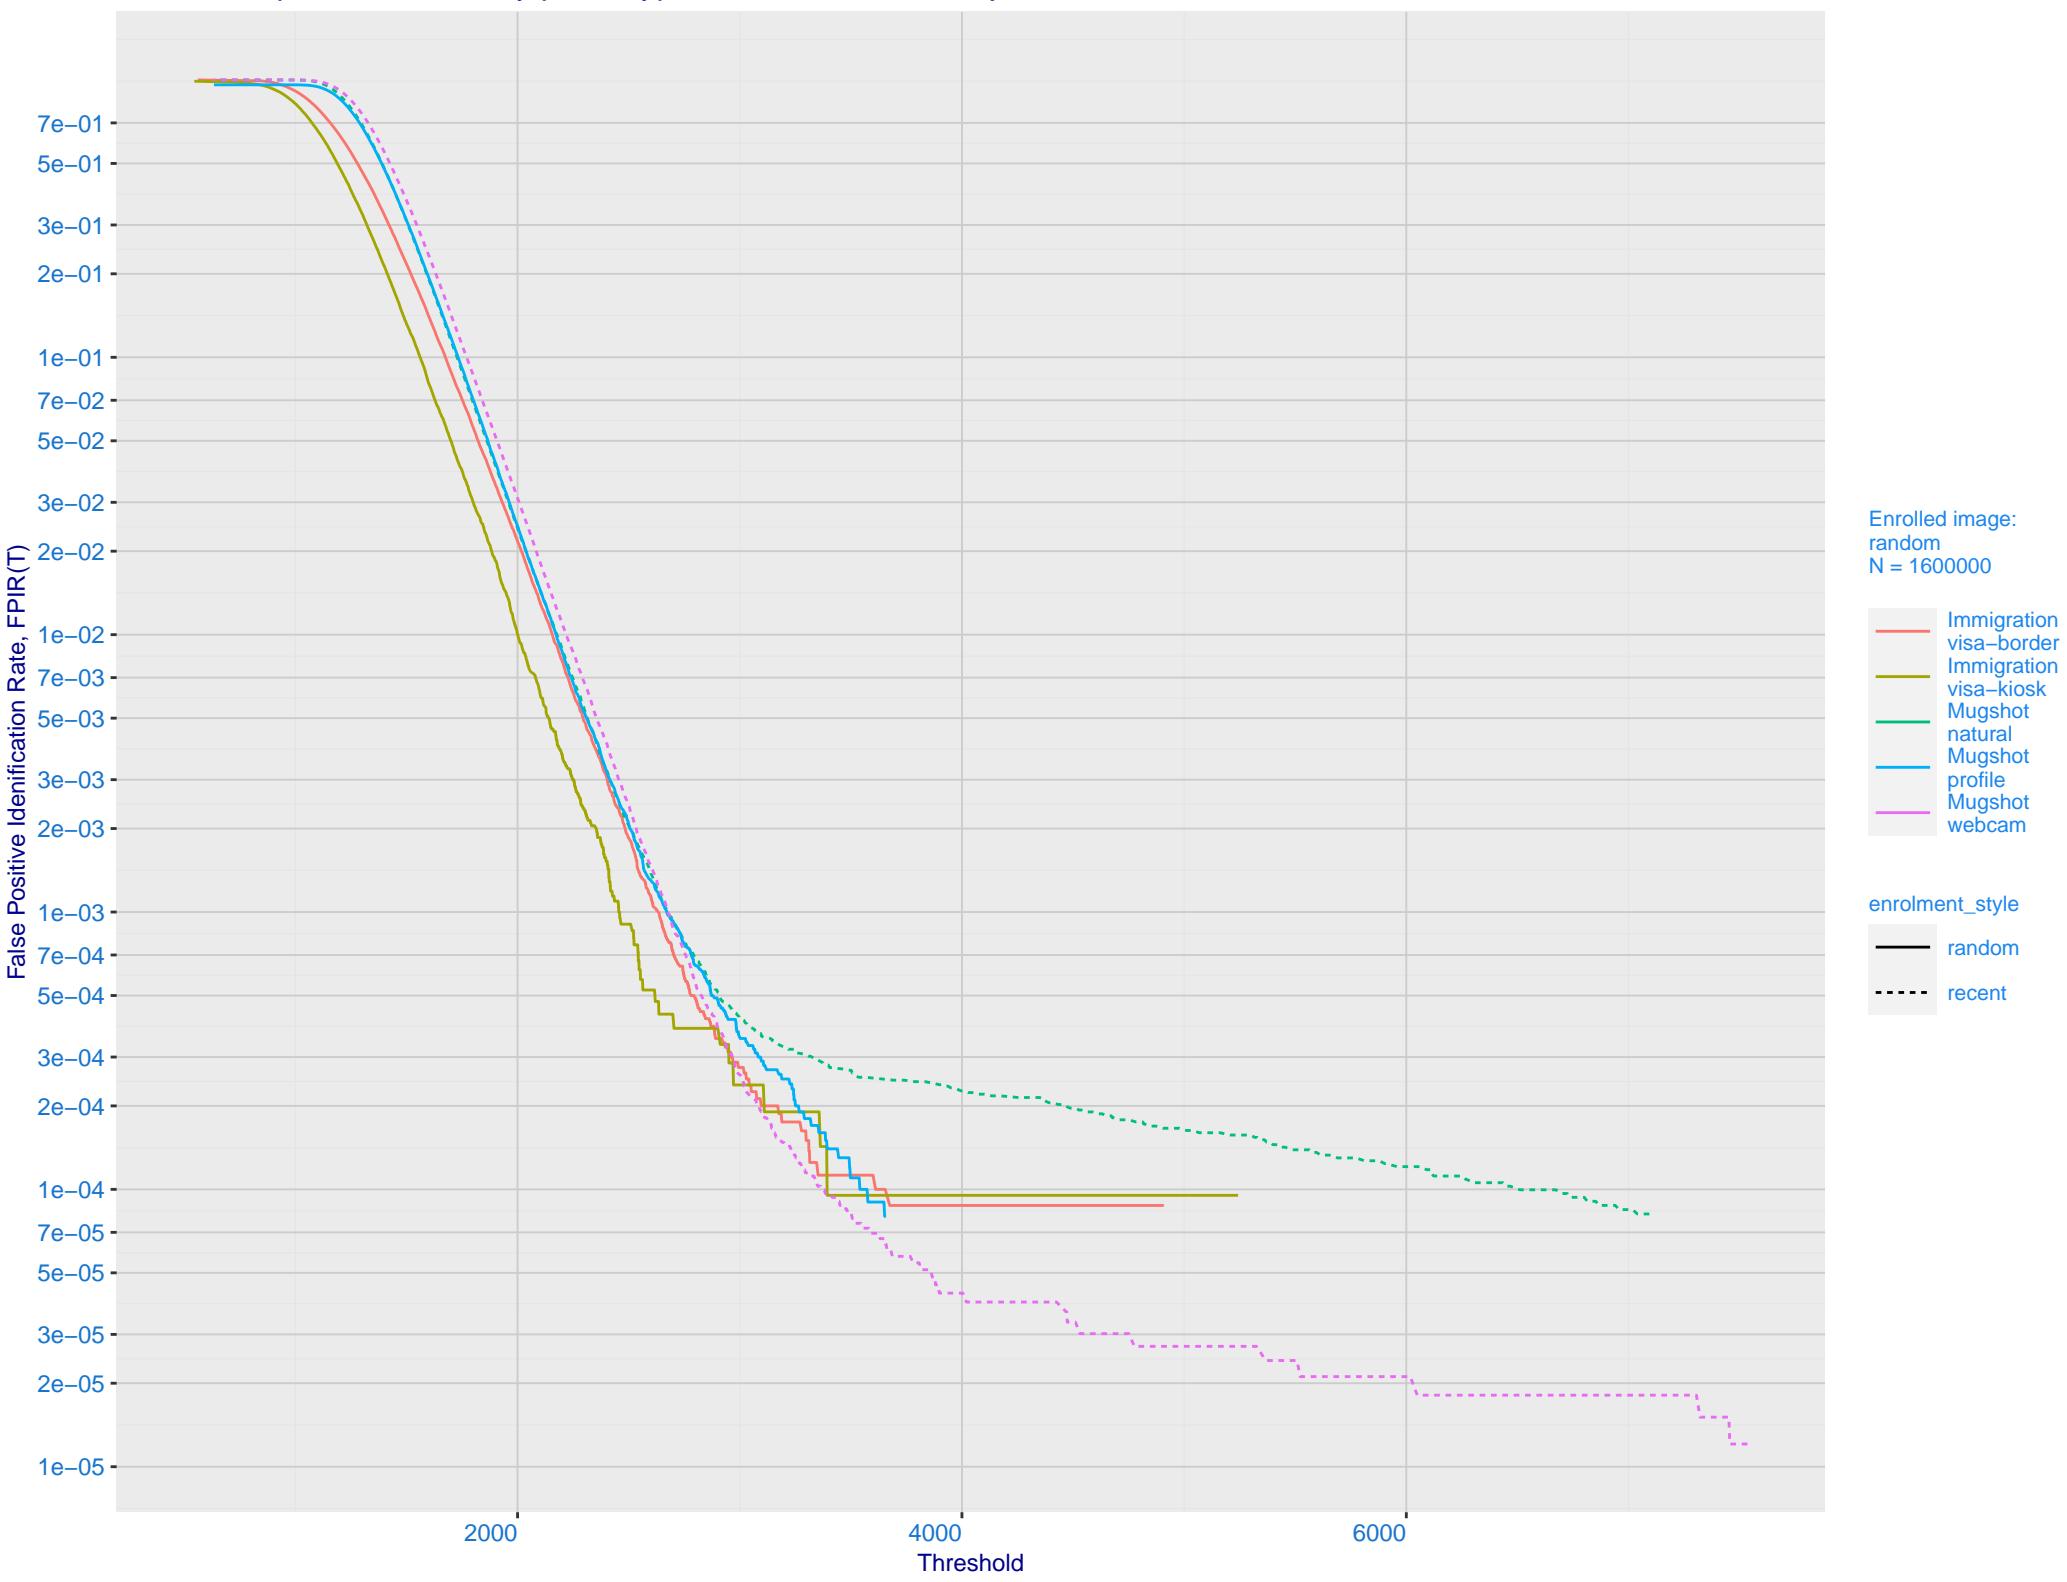

N 00640000 01600000 03000000 06000000 12000000

F: FPIR vs. Selectivity for mugshot images, N = 1600000 subjects enrolled with one recent mate

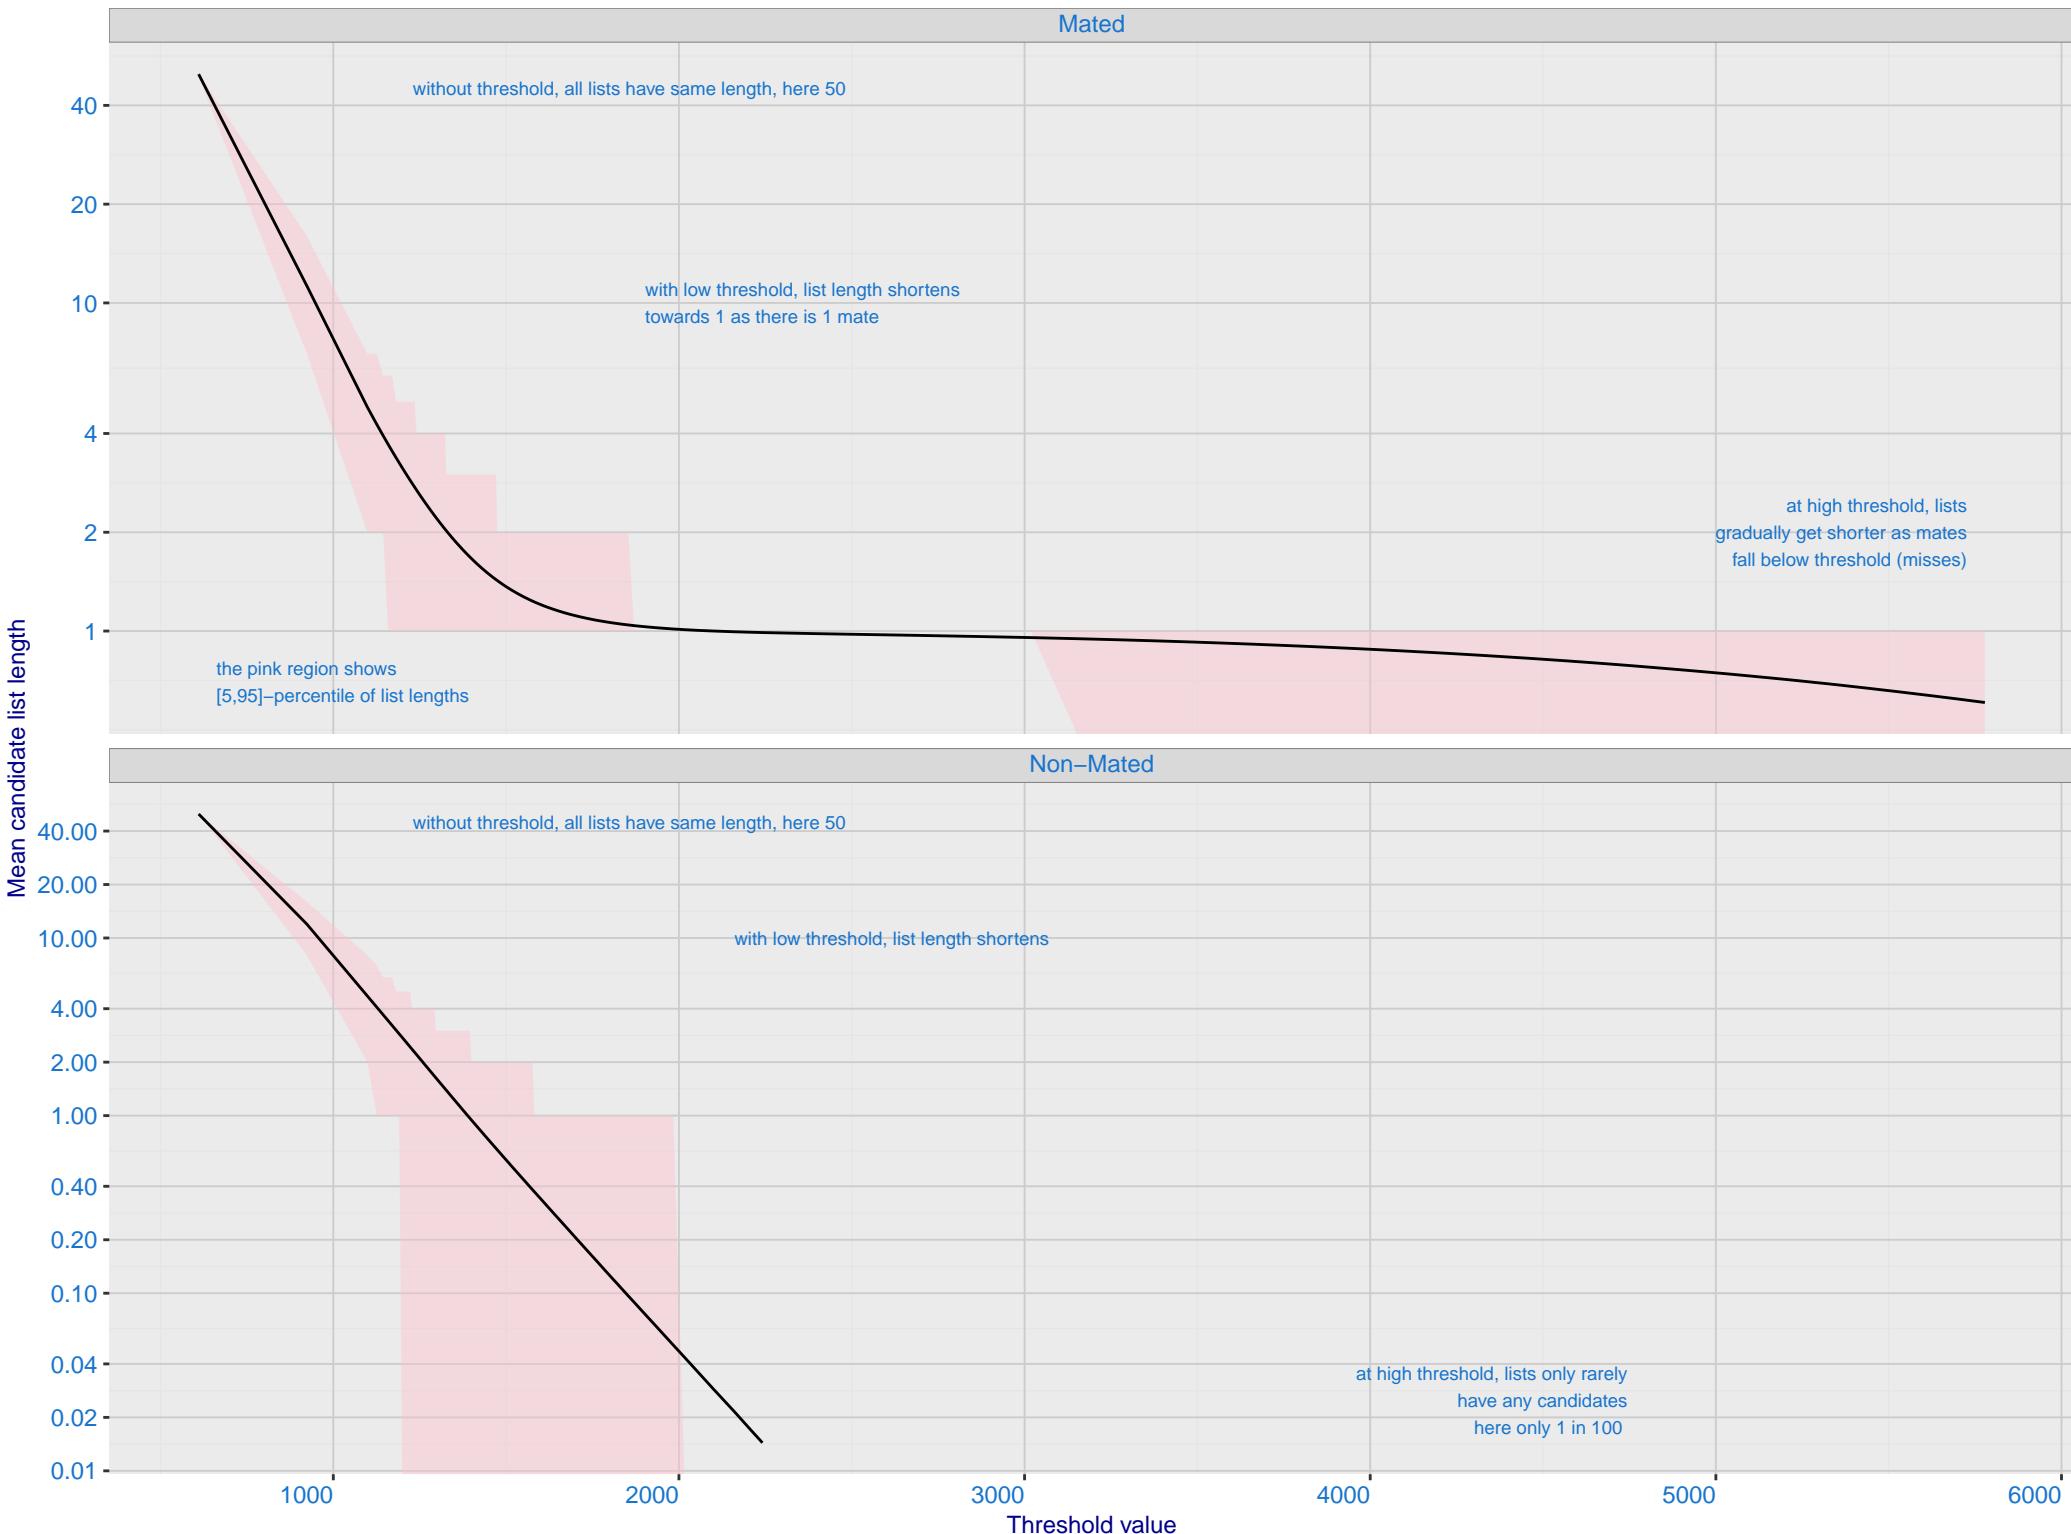

G: FPIR dependence on T by probe type for N = 1600000 subjects

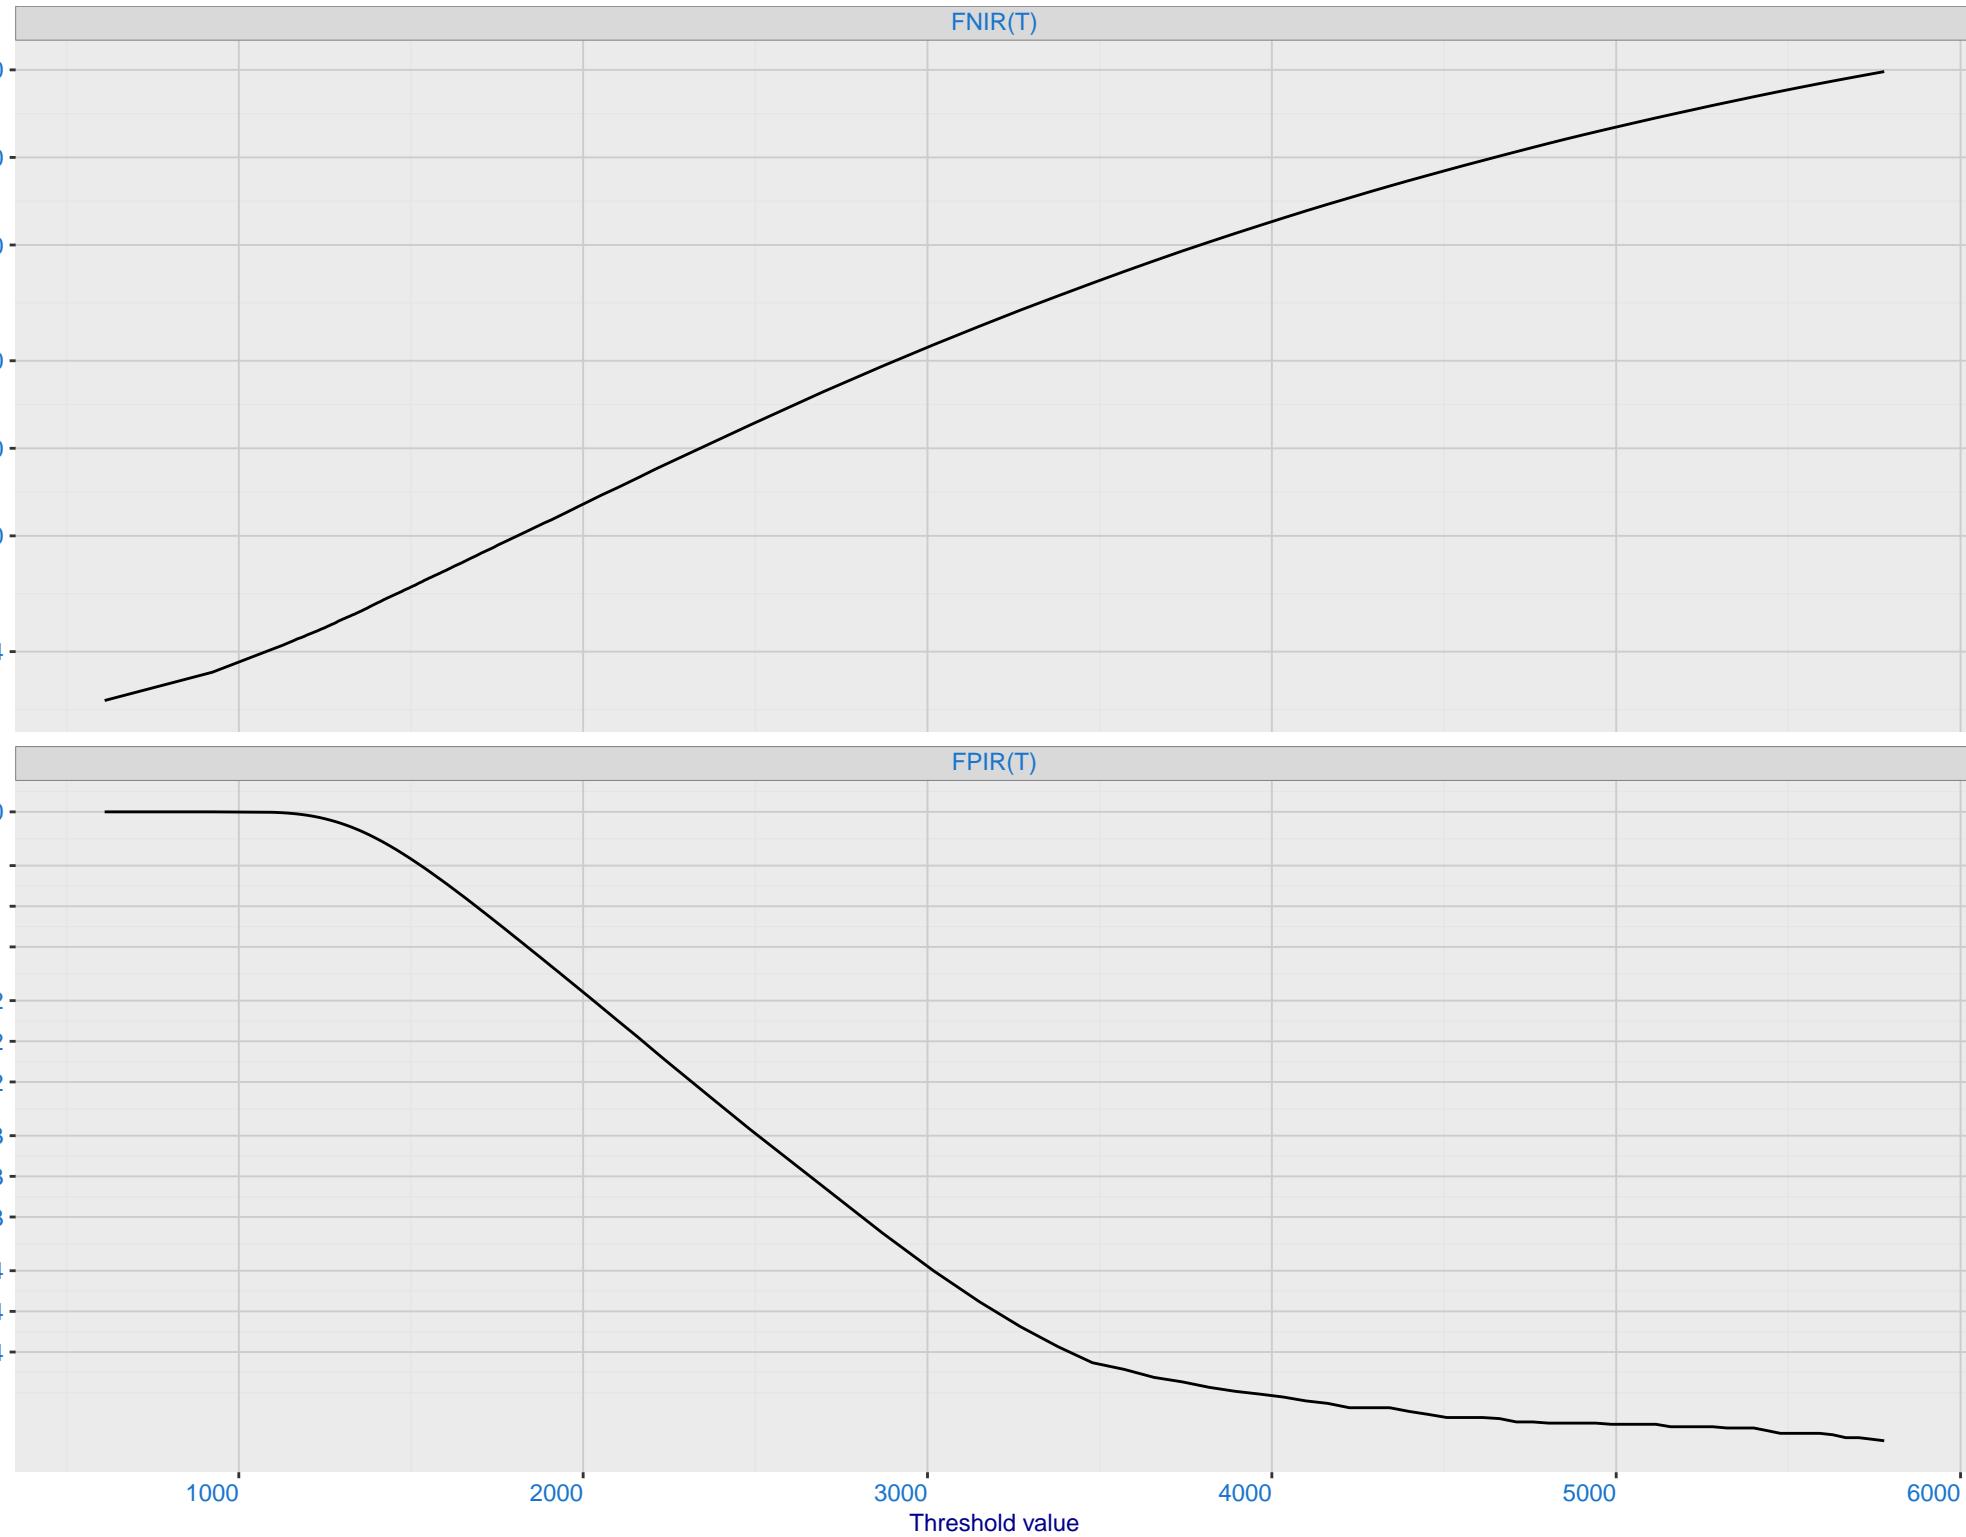

H: Reduced length candidate lists for human review

Dataset is border–border with time–lapse [10,15] YRS with N = 1600000. Probes are 10–15 years later than enrollment image

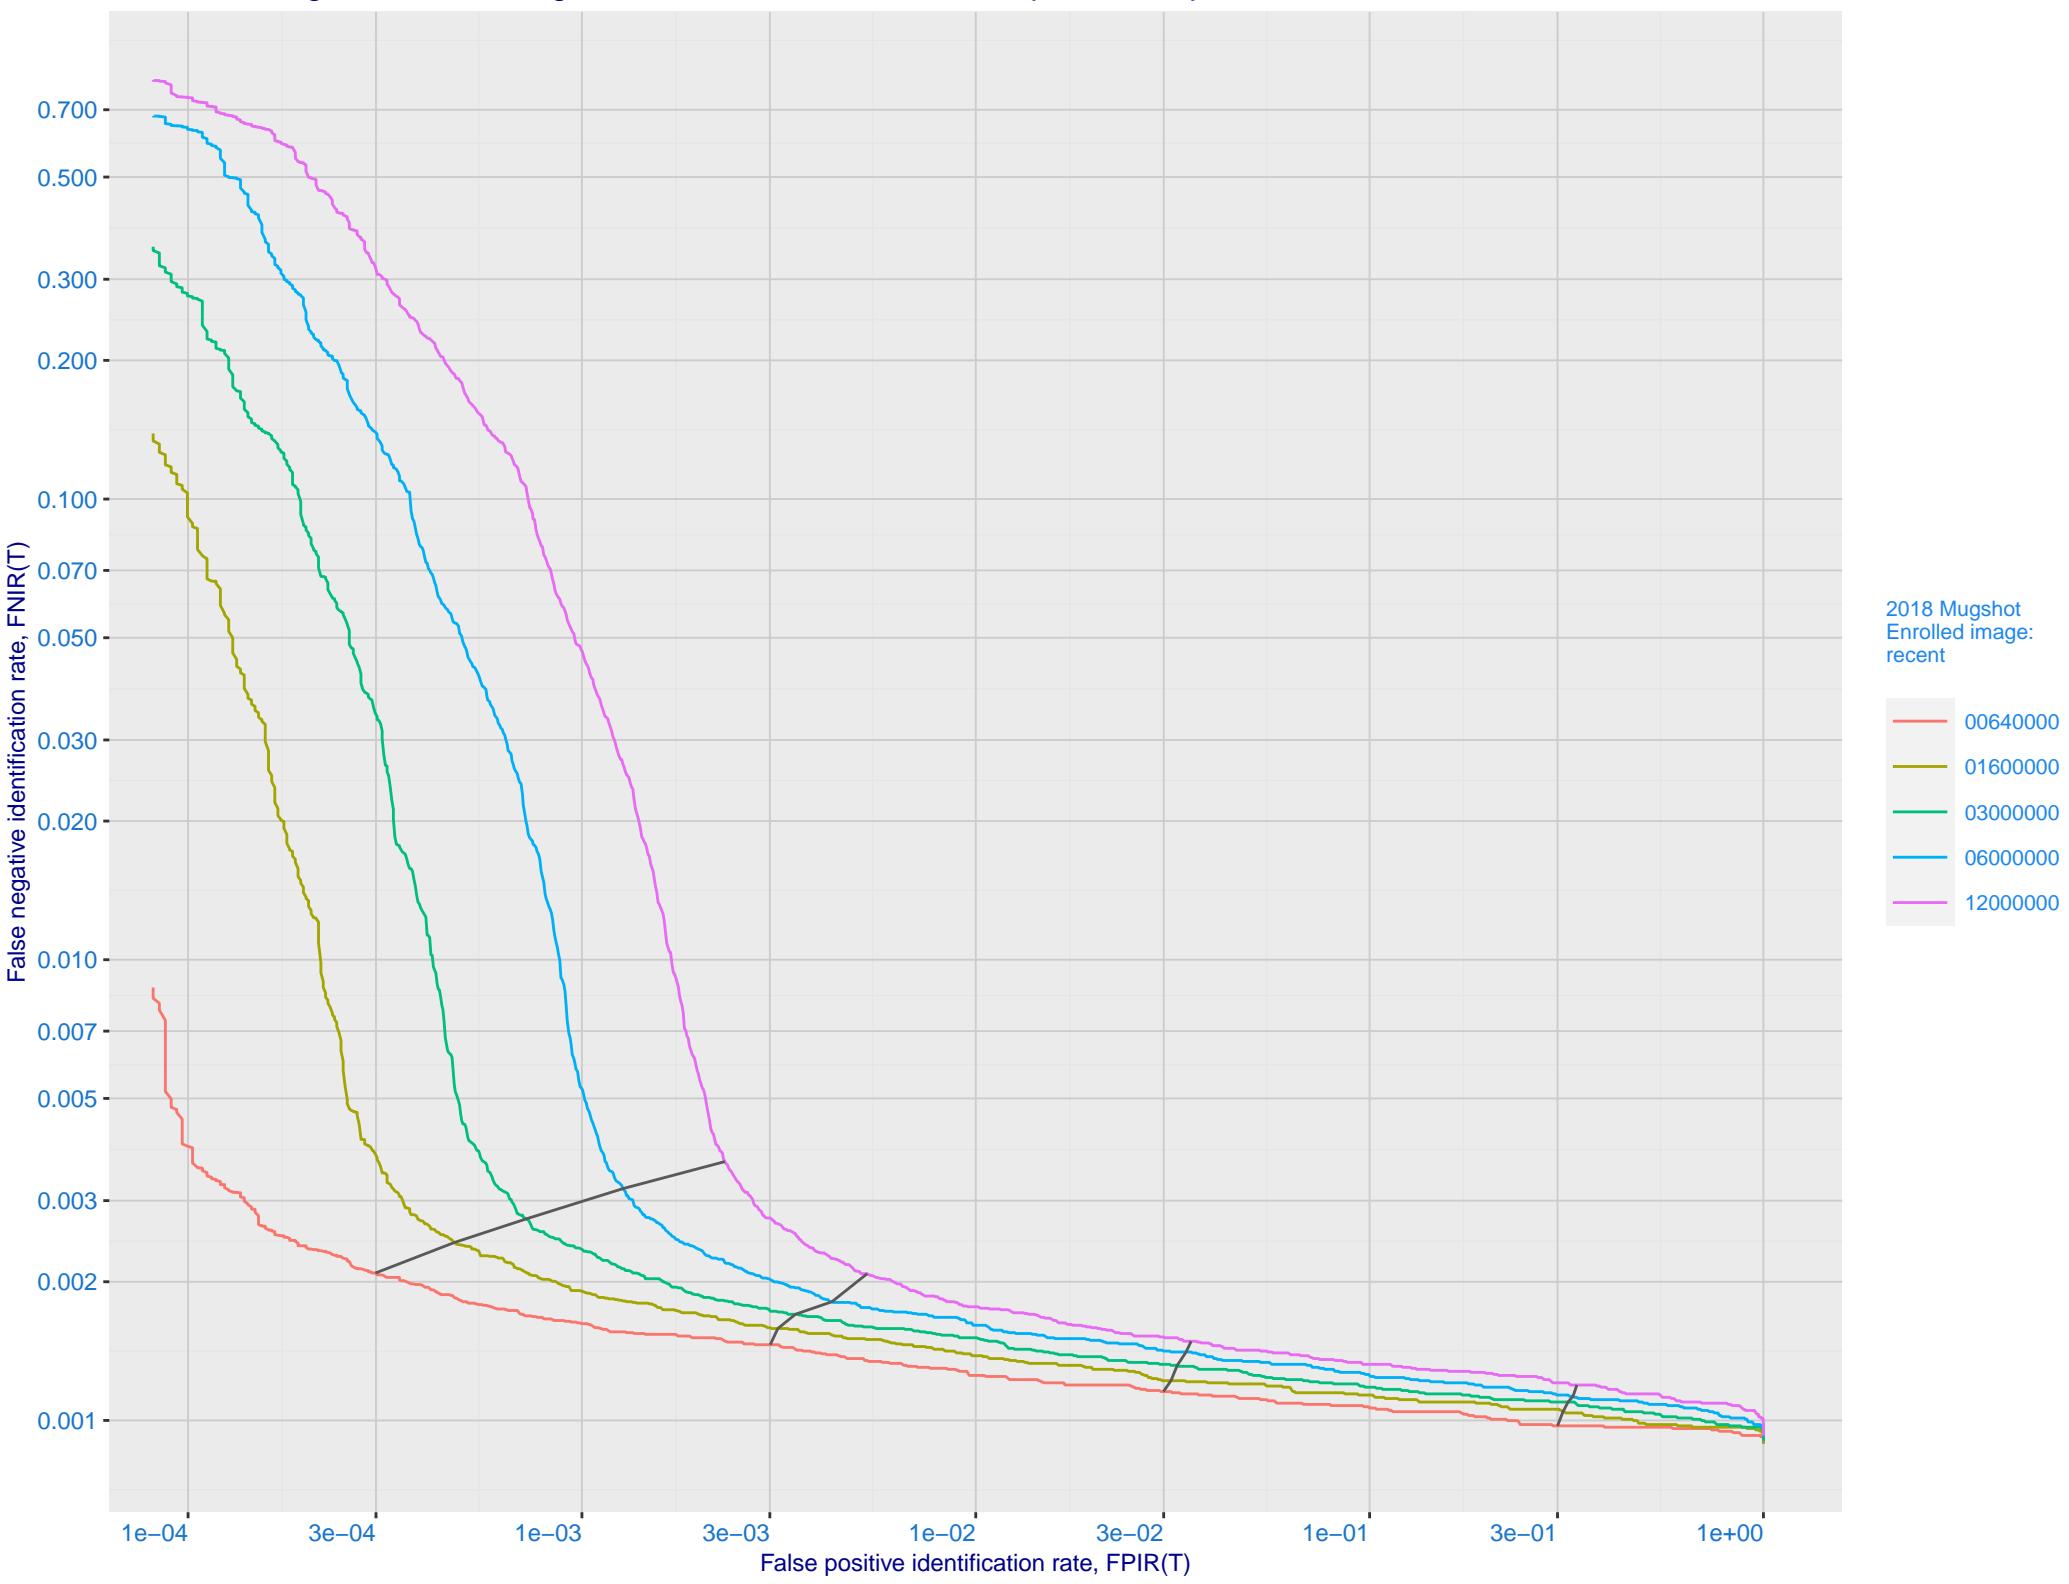

I: FNIR and FPIR dependence on threshold

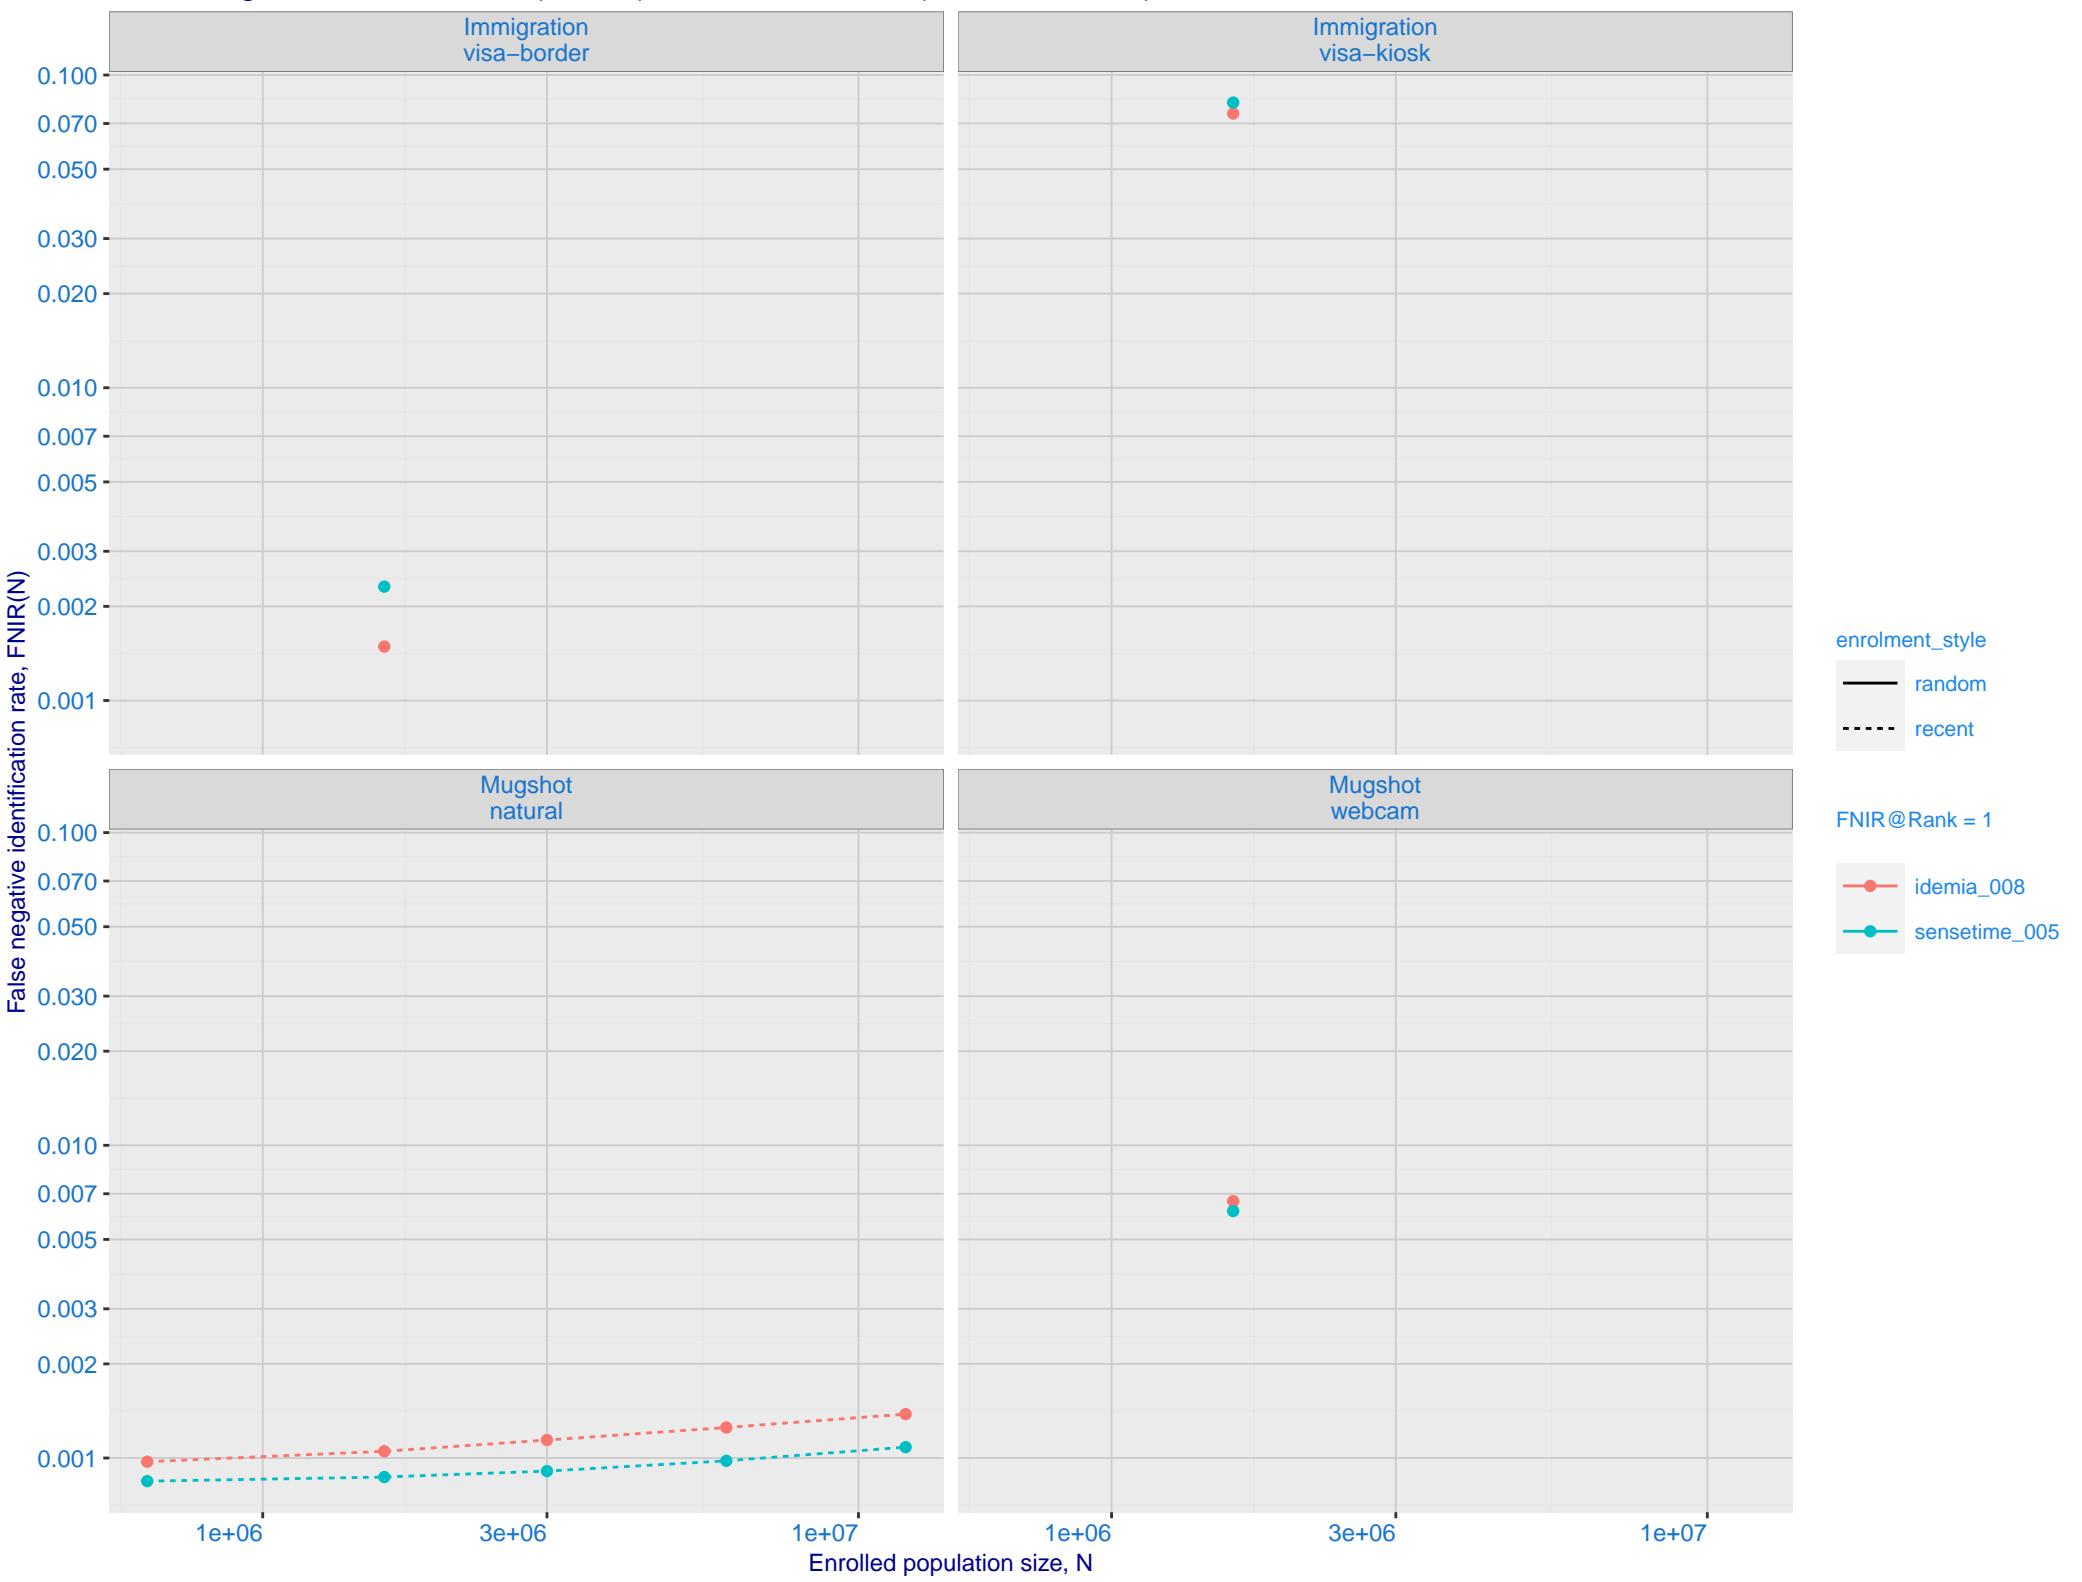

Dataset is border–border with time–lapse [10,15] YRS with N = 1600000. Probes are 10–15 years later than enrollment image

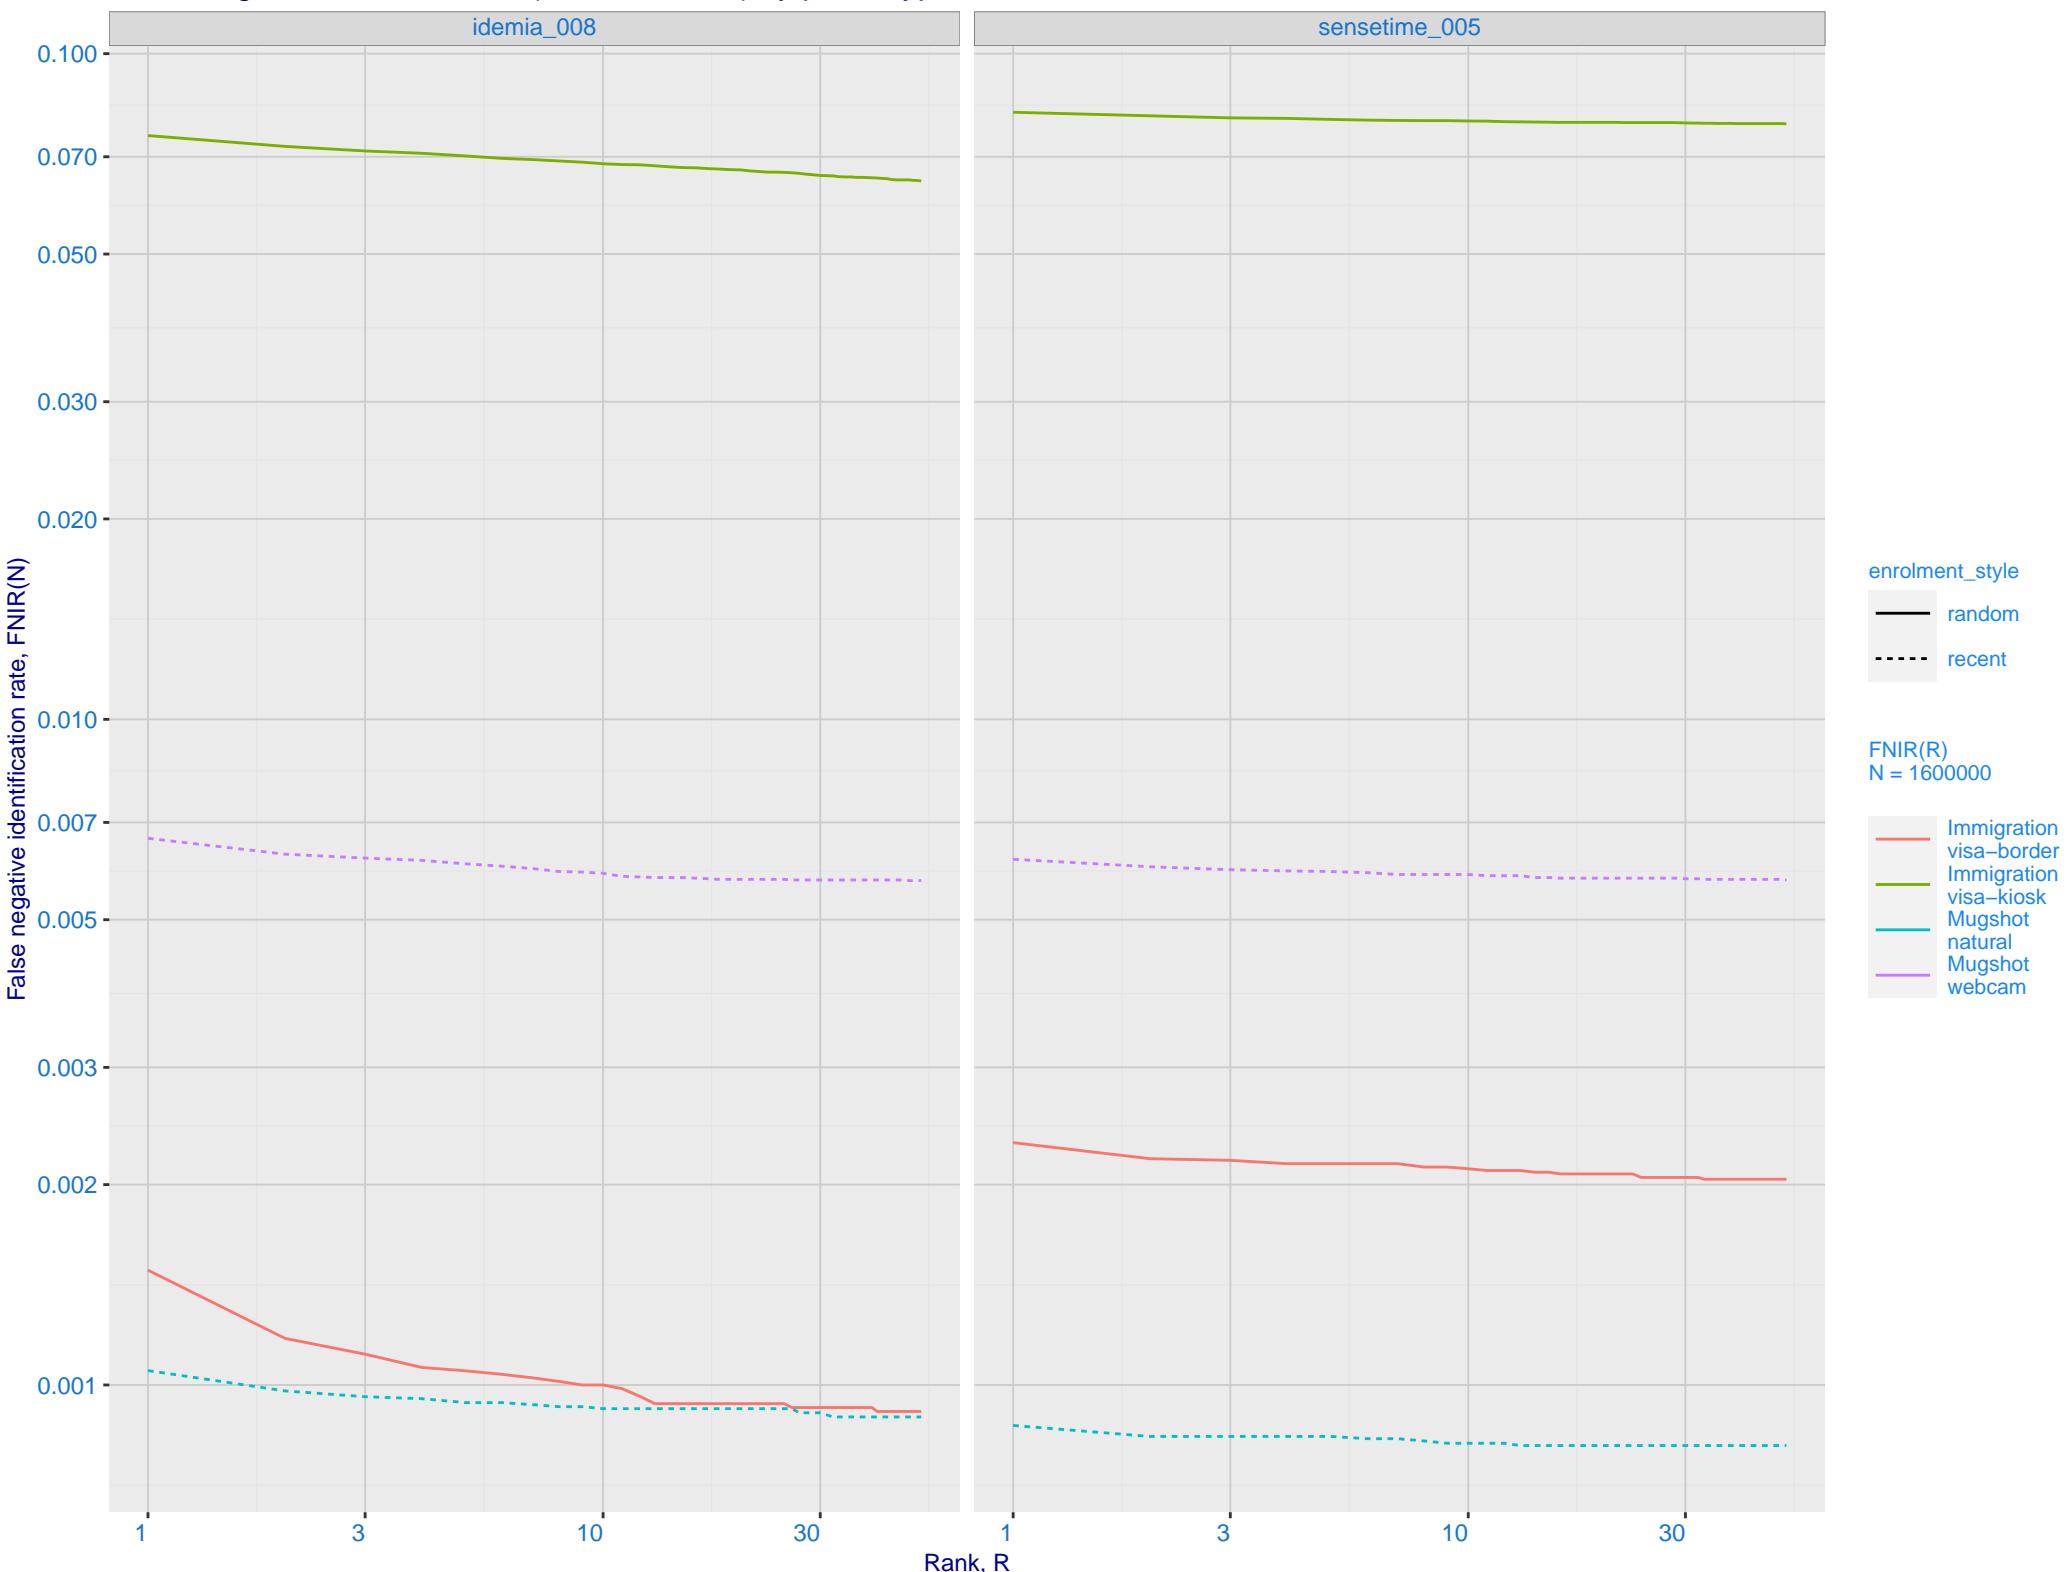

J: DET for Mugshot natural images and various N. Links connect points of equal threshold.

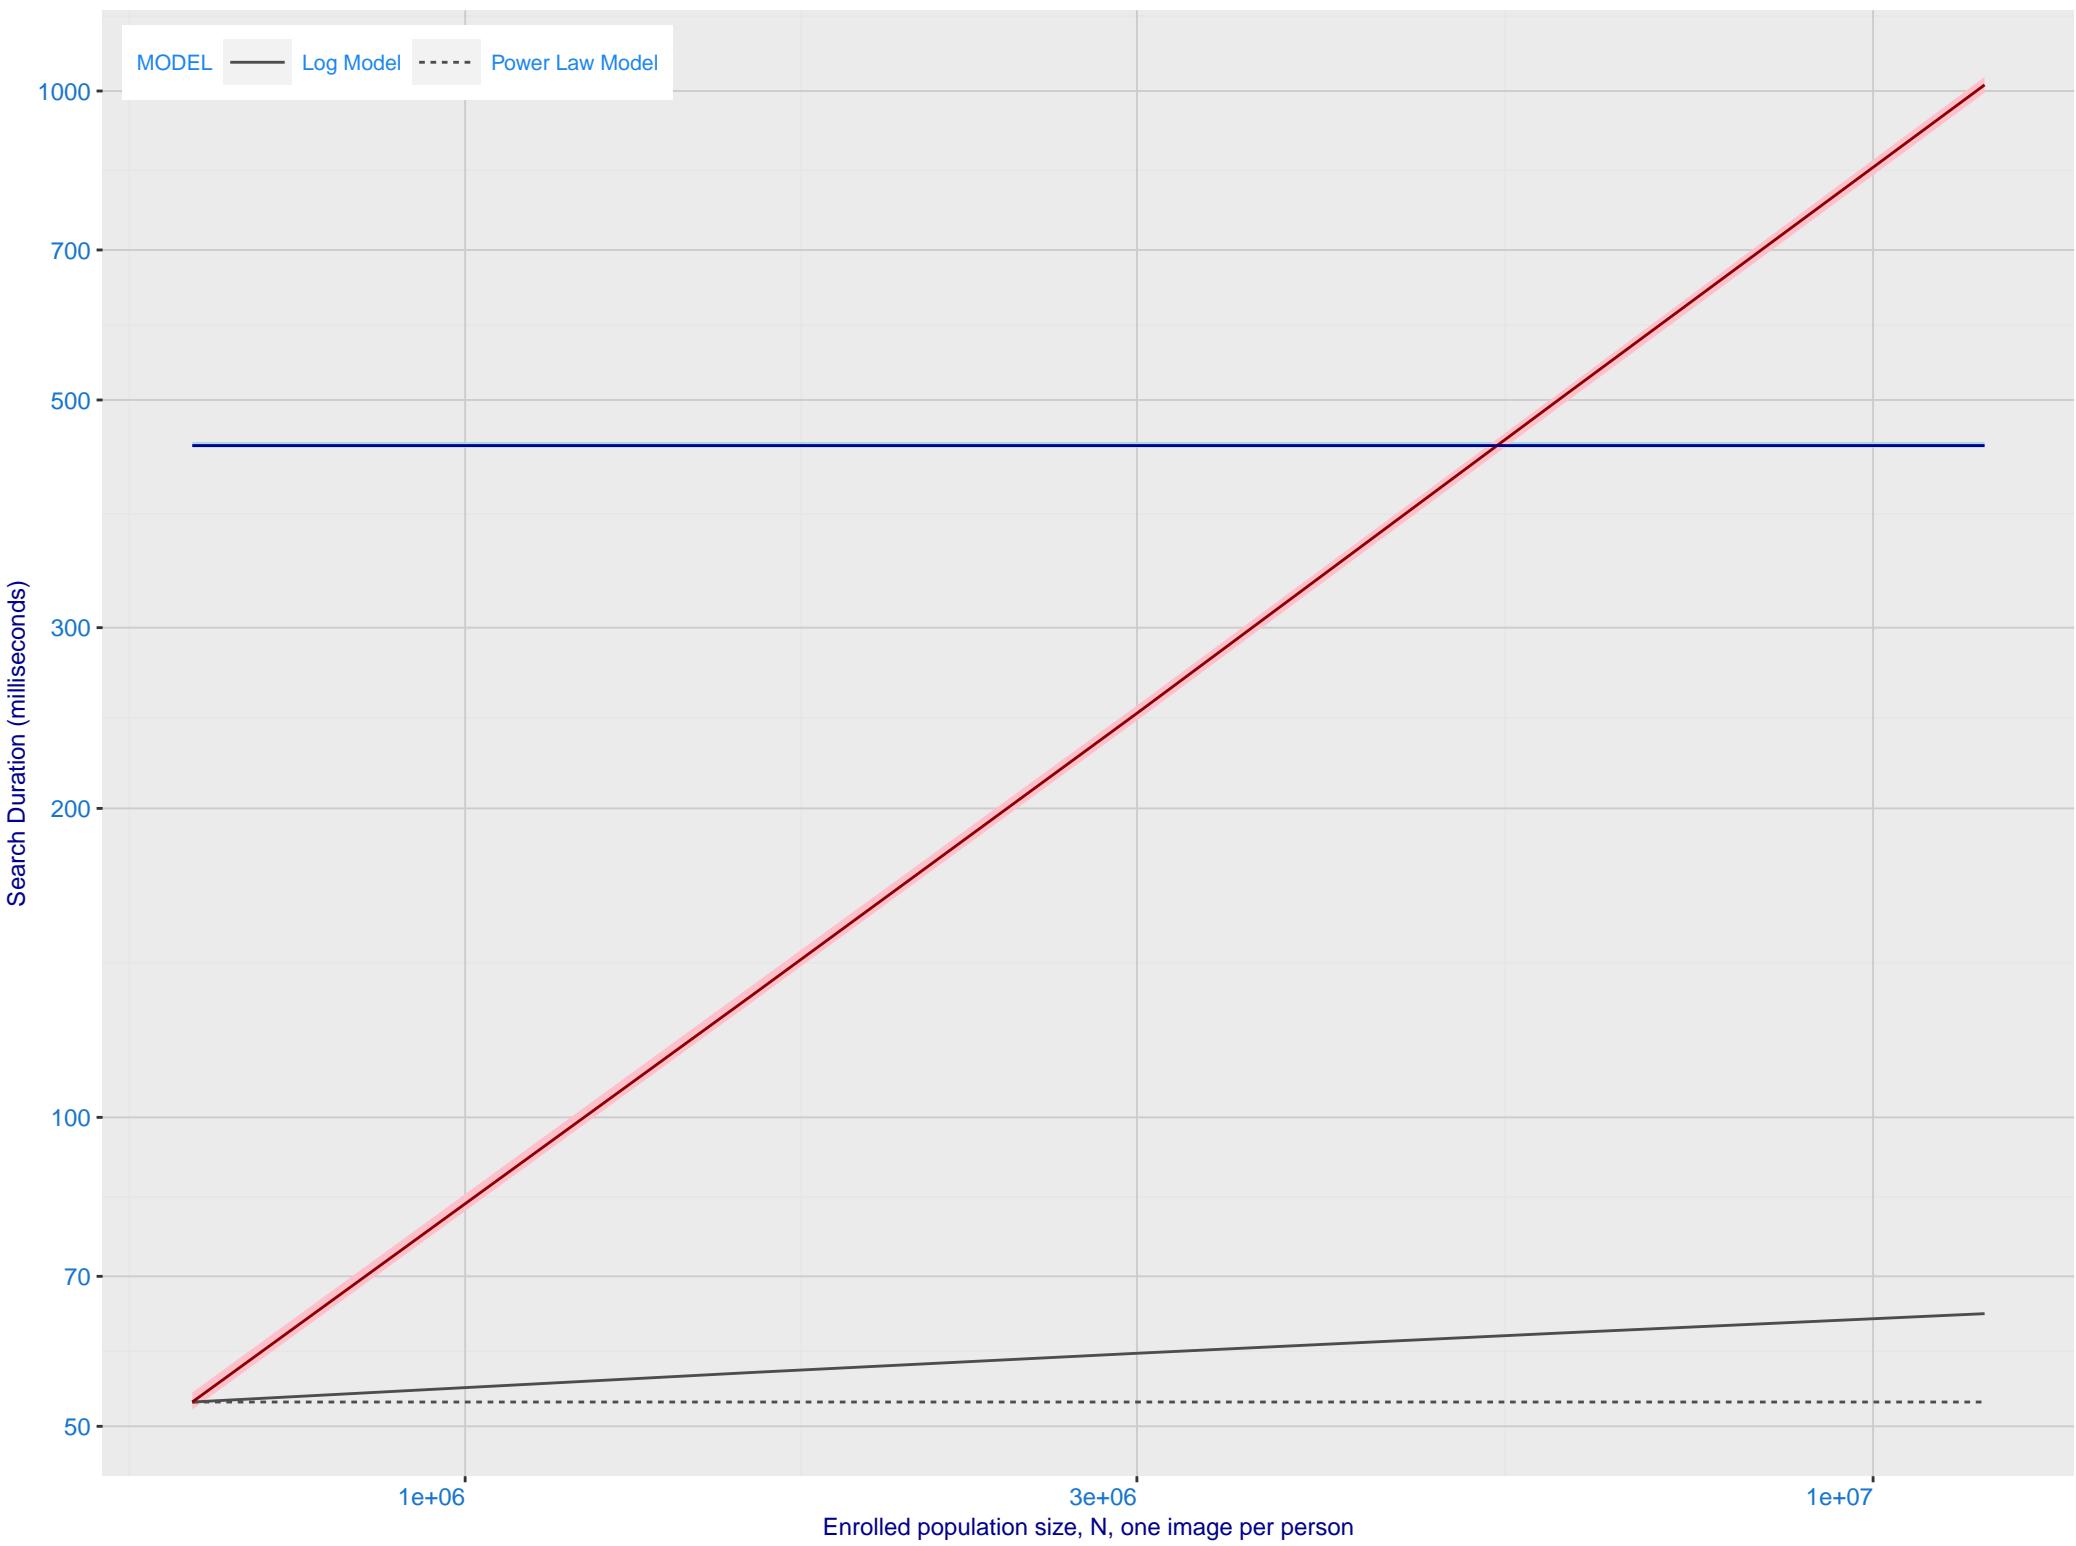

K: Investigational mode: FNIR(N, 1, 0) vs. most accurate (sensetime_005)

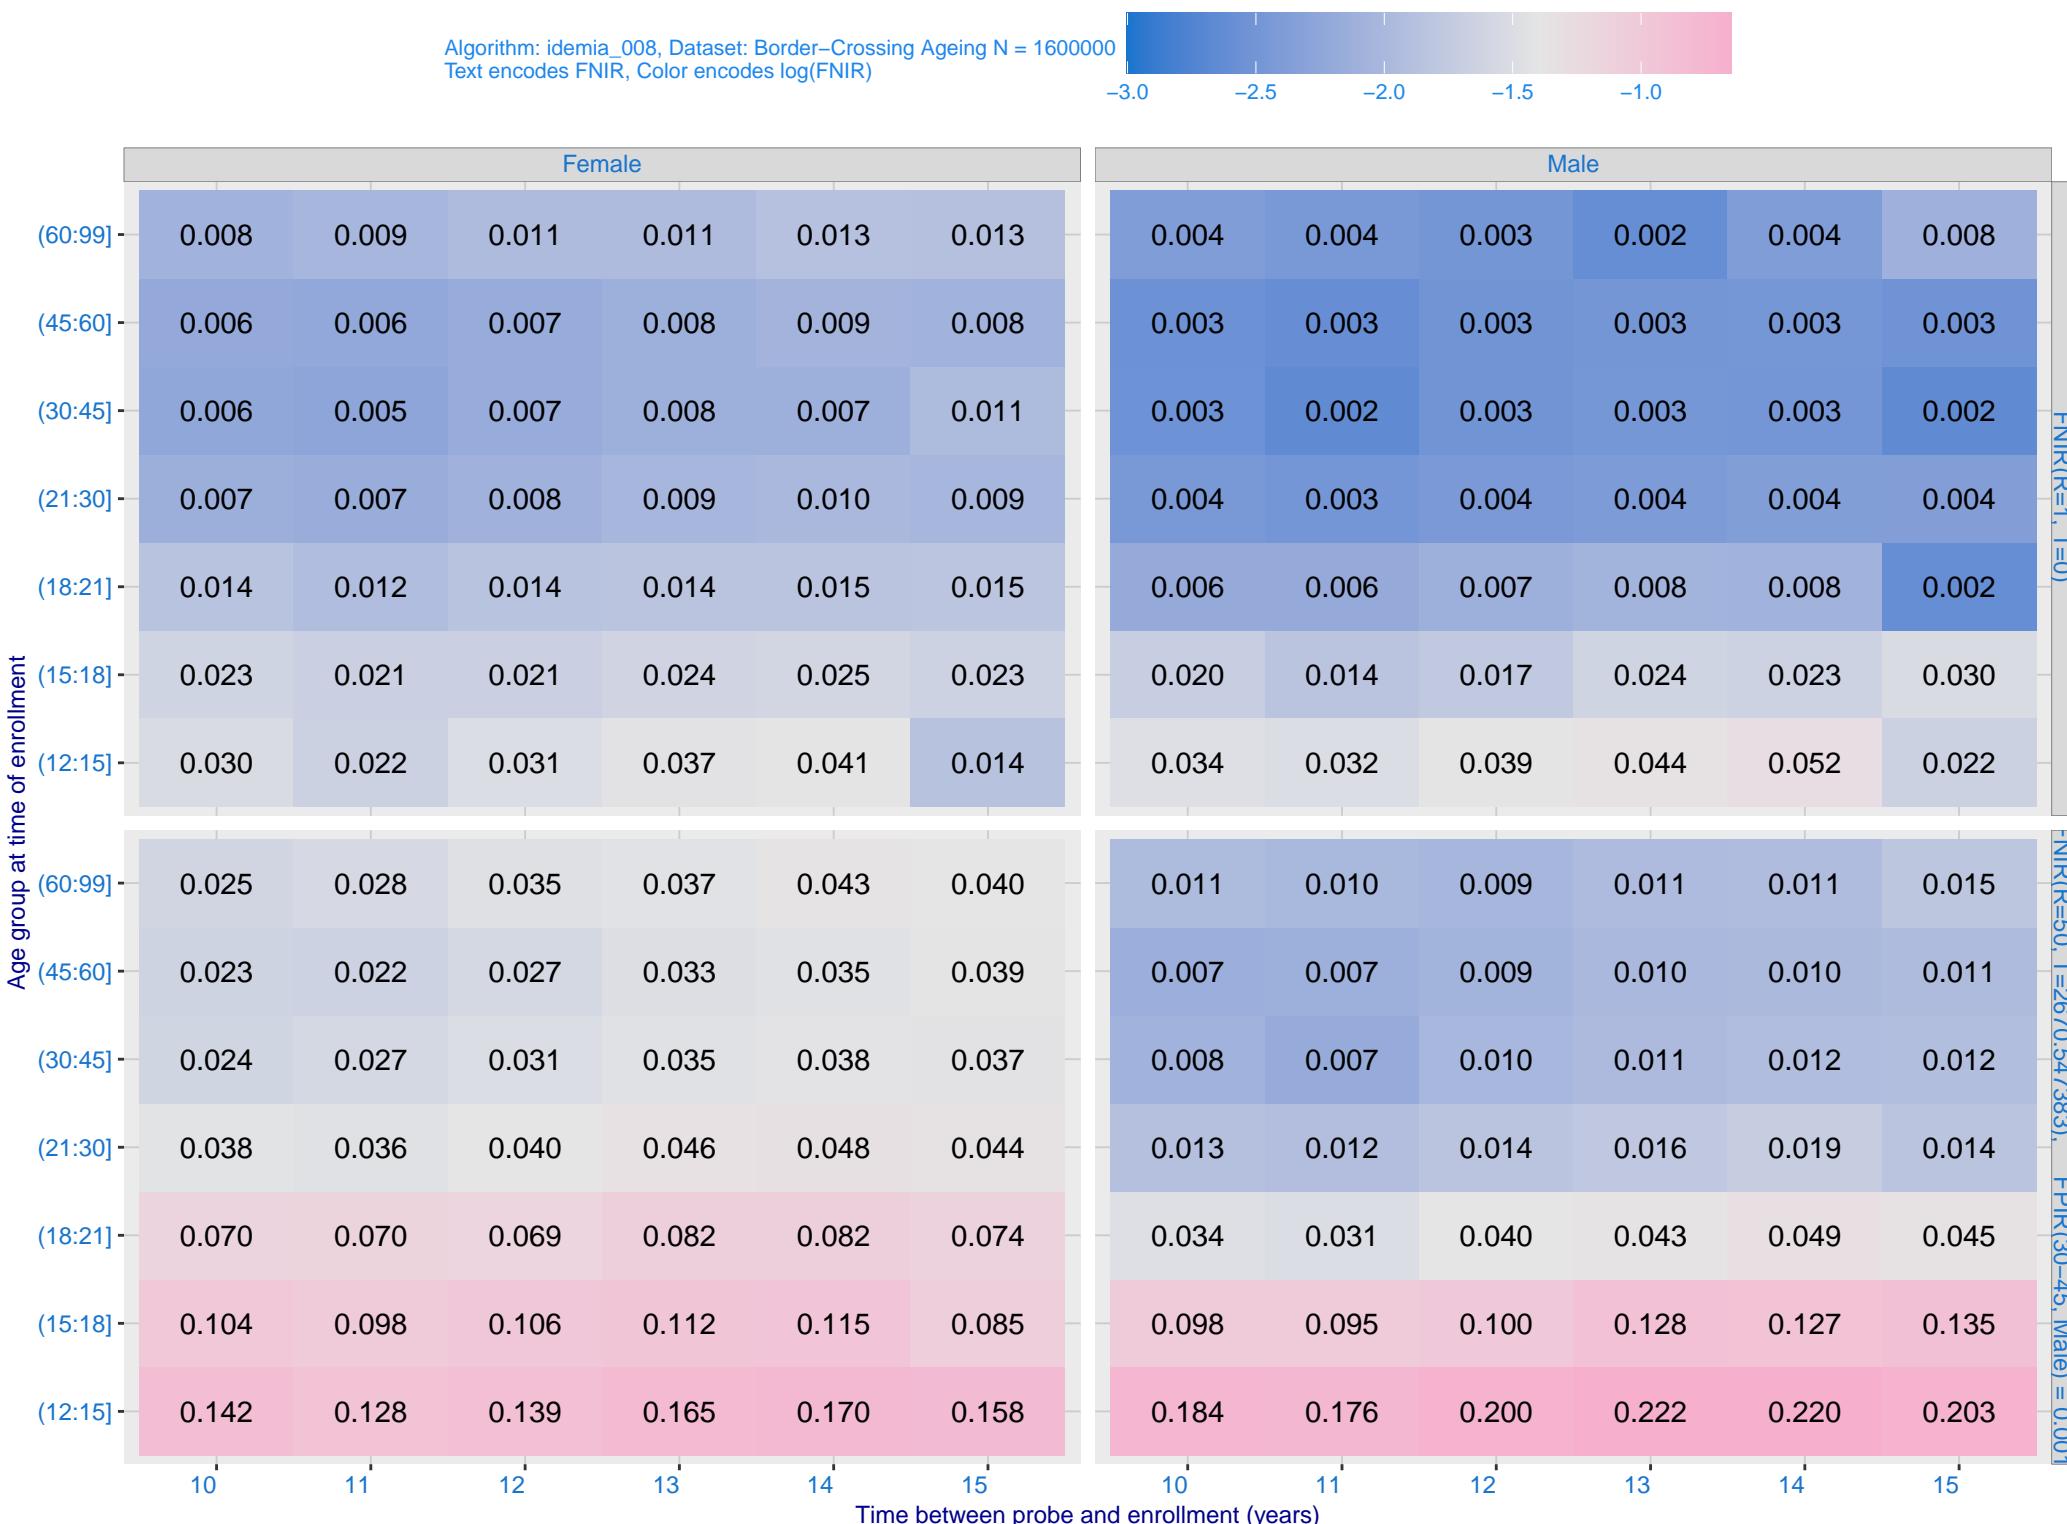

L: Investigational mode: FNIR(1600000, R, 0) by probe type

M: Template duration; search duration vs. N. The blue and pink ribbon covers 95 percent of observed measurements.
The template generation time is independent of N. The log and power-law models are fit to the first two (N,T) observations

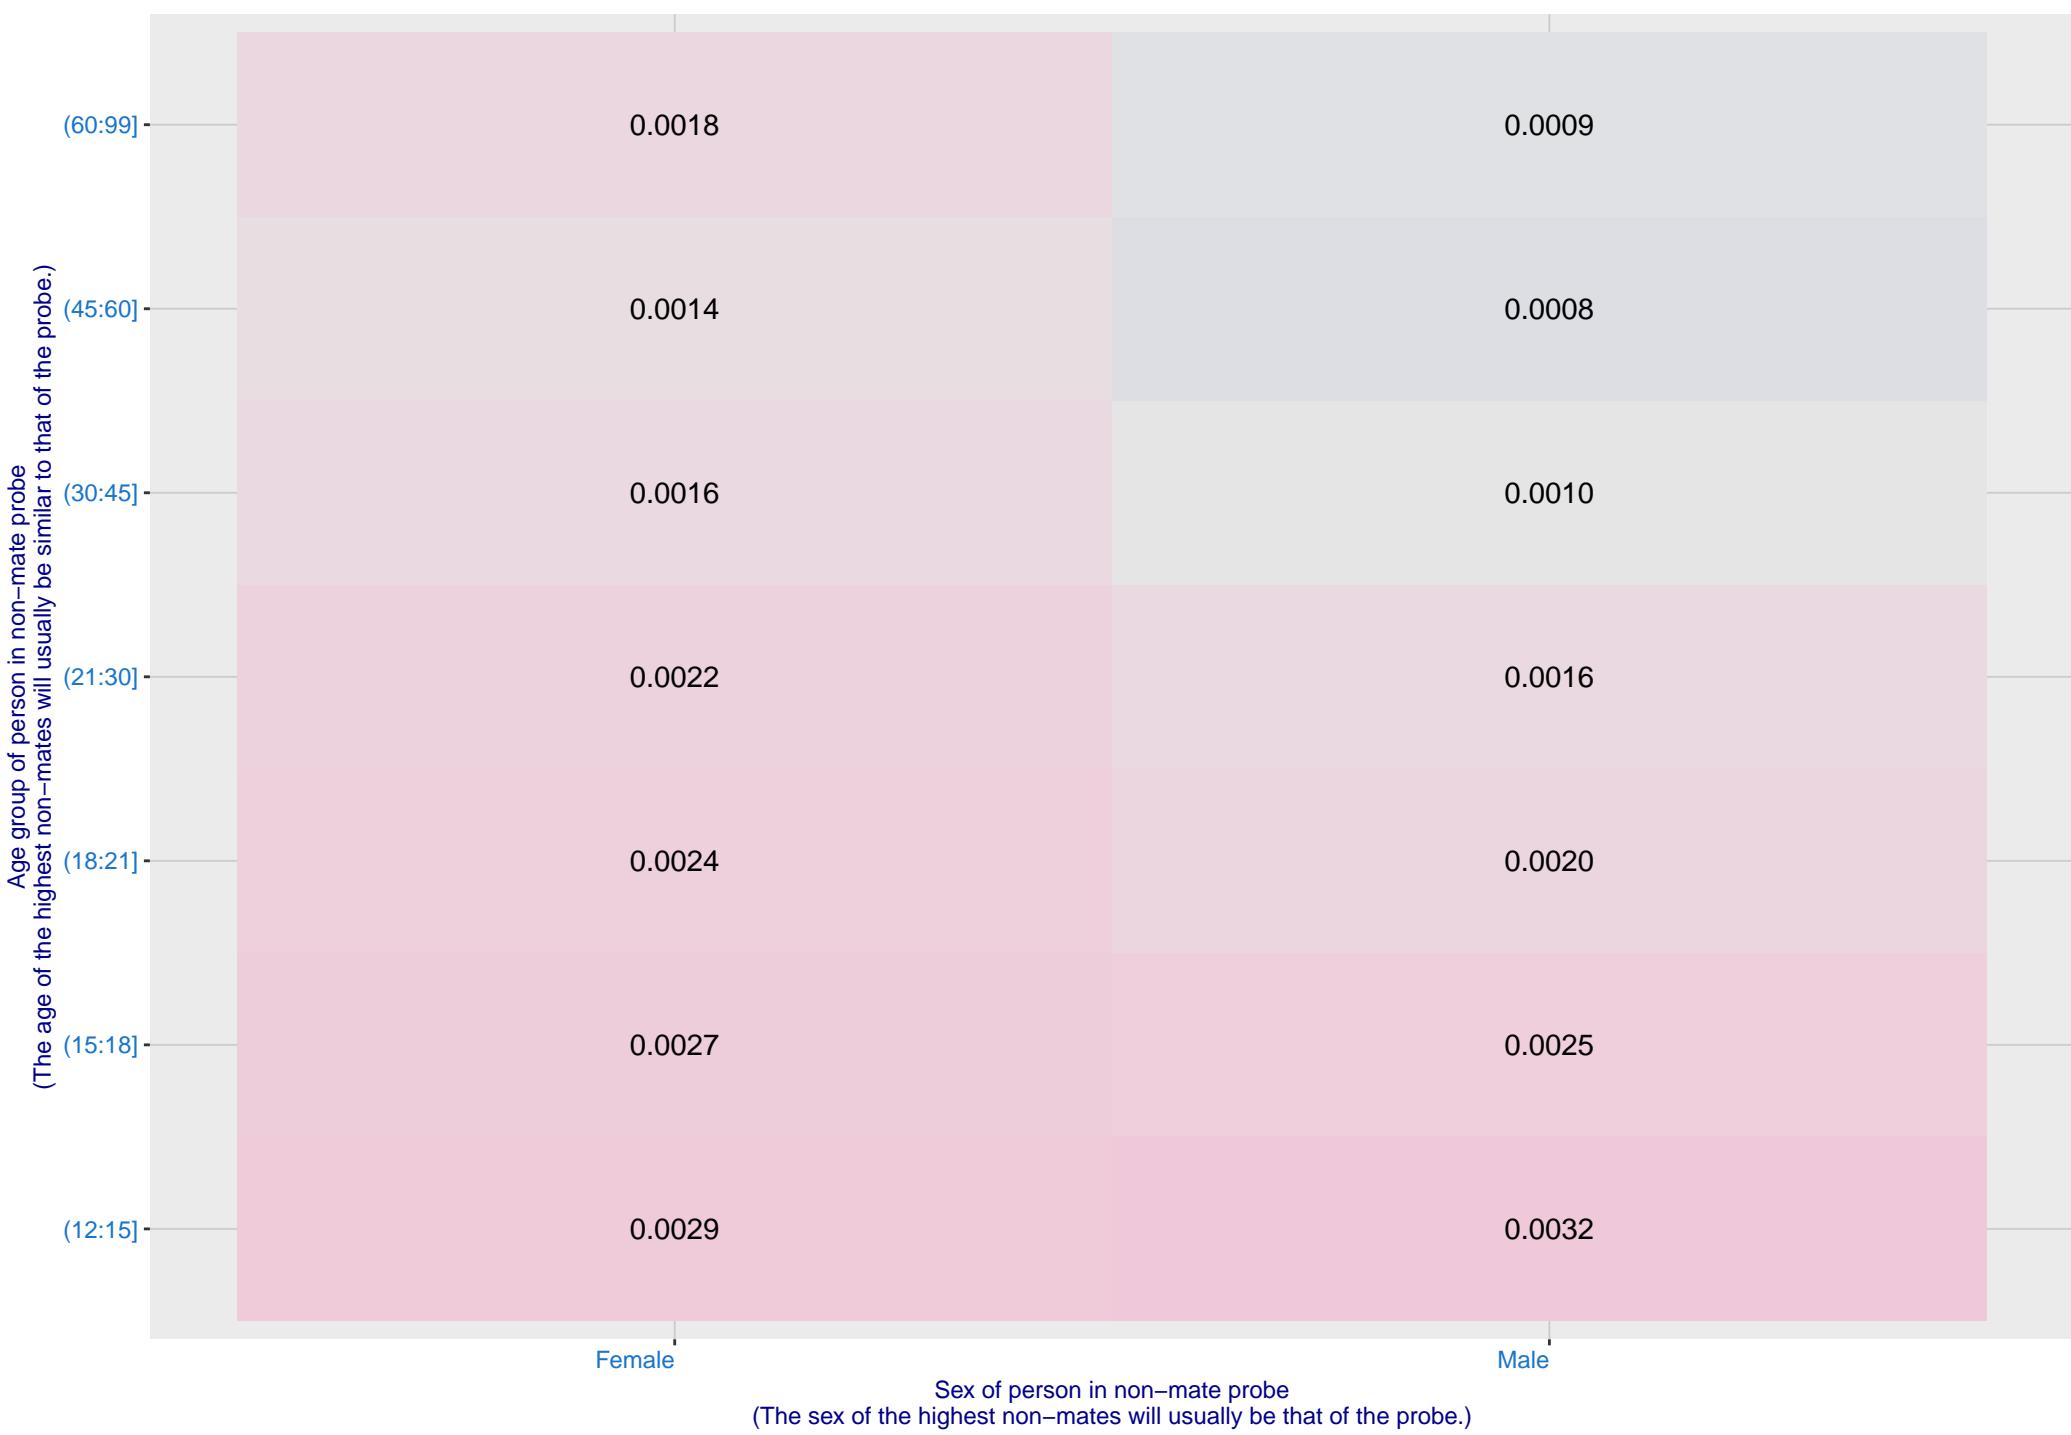

O: FNIR(T, N = 1.6 million) by sex, age and time-lapse. The top row gives investigational rank-1 miss rates.
 The bottom panels give high threshold for more lights-out identification with low FPIR.

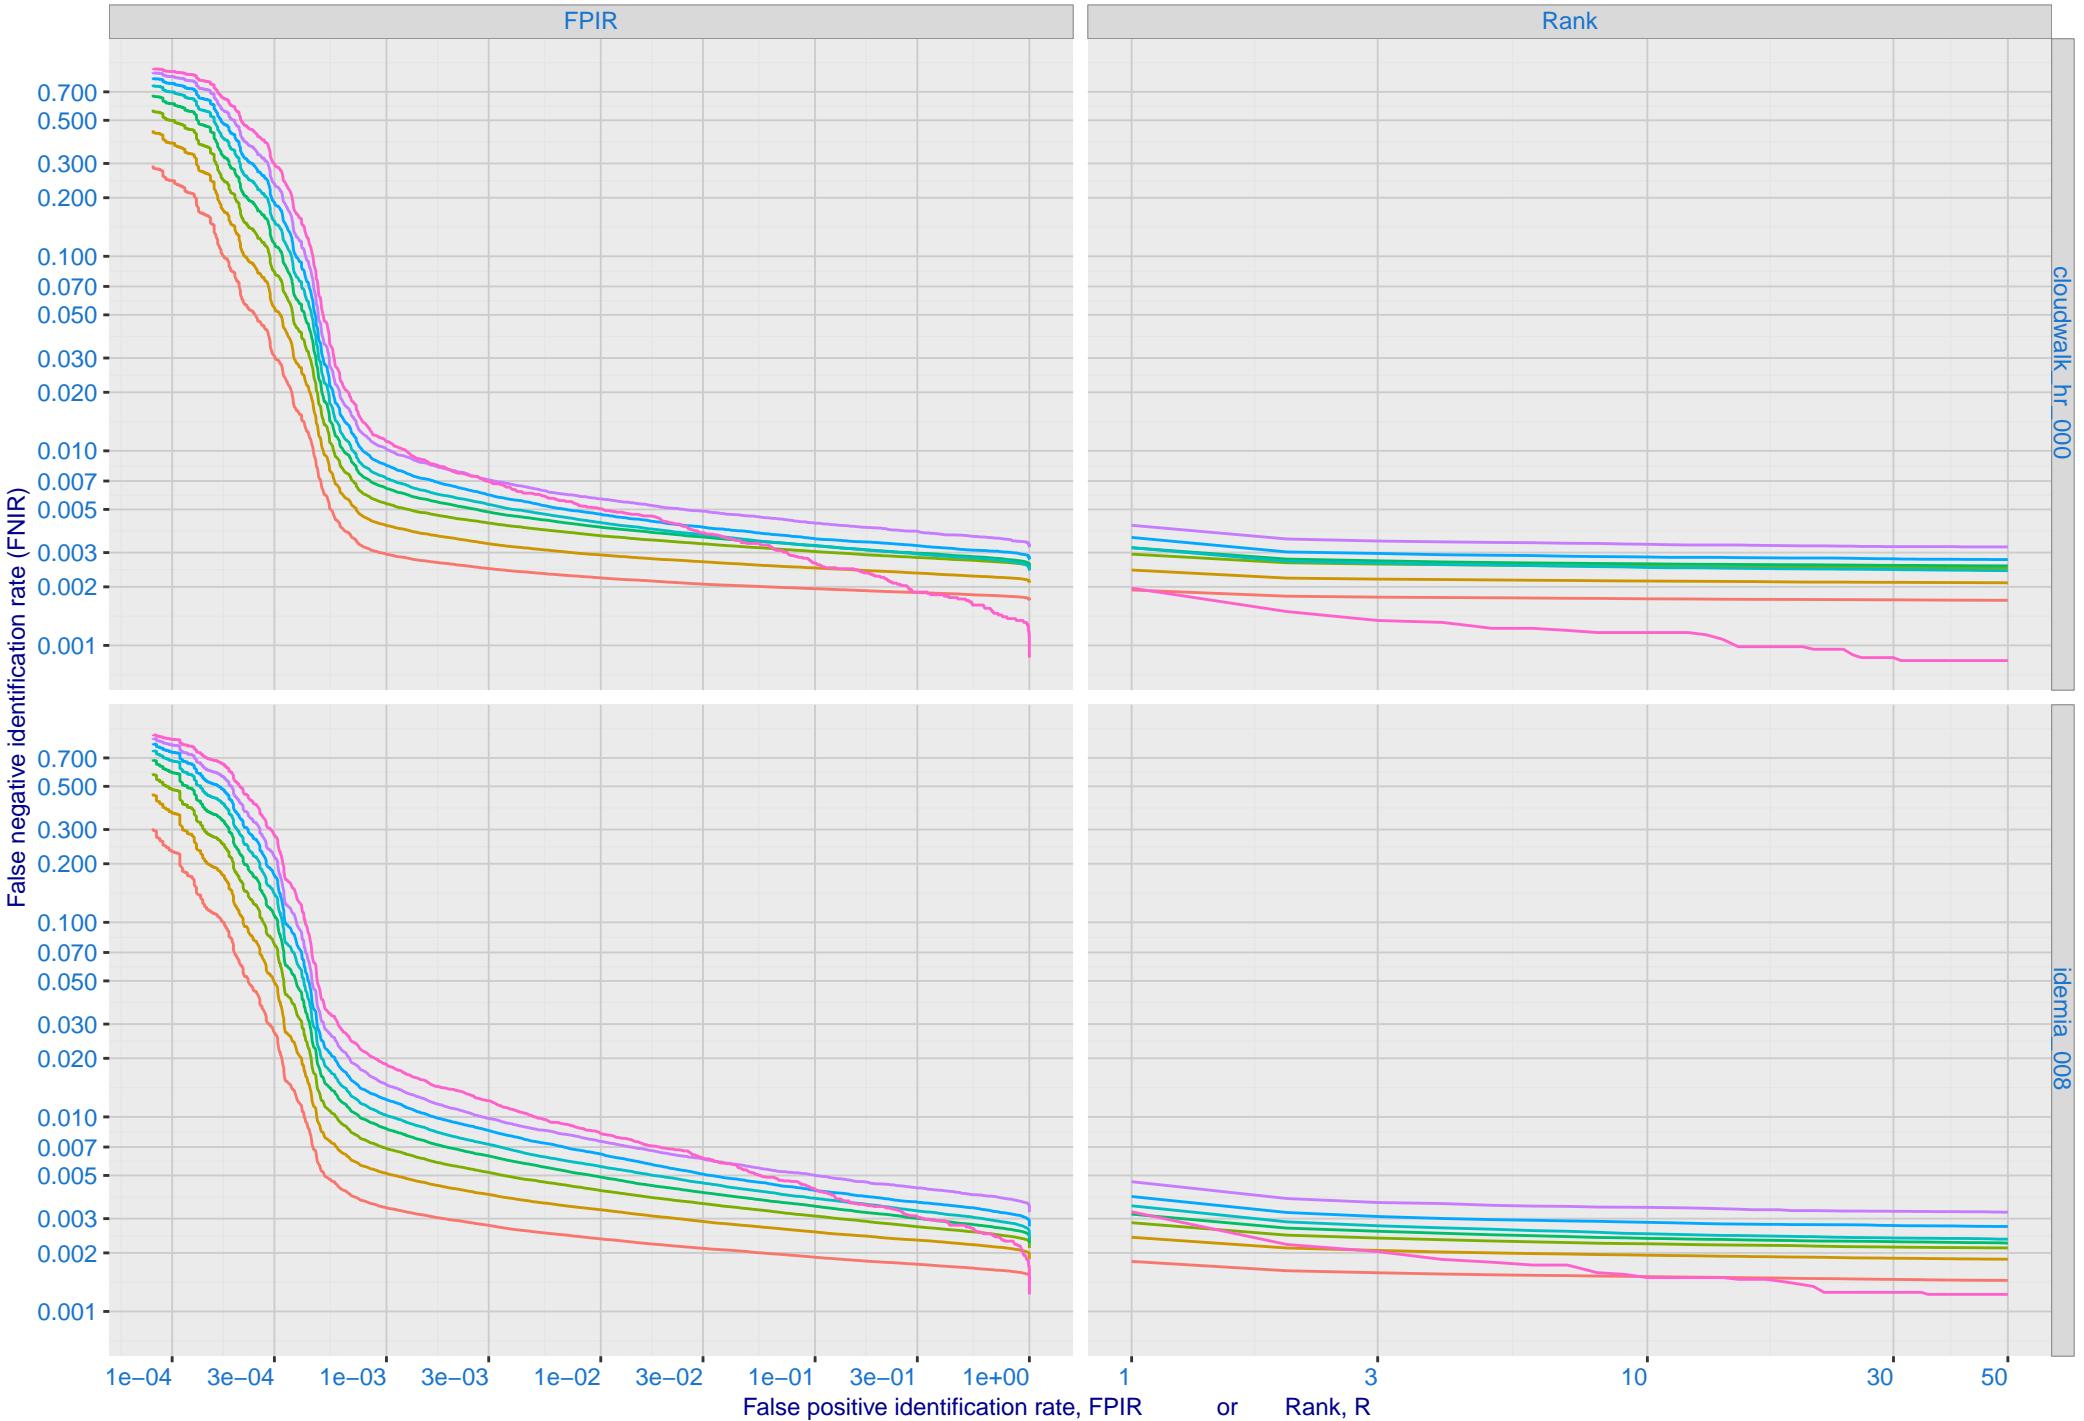

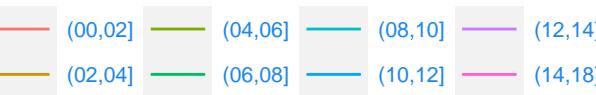

P: FPIR(N = 1.6 million) by sex and age. It is typical for false positive identification rates to be higher in women except in their teens.

Algorithm: idemia_008, Dataset: Border–Crossing Ageing
Threshold: 2670.547383 set to achieve FPIR(30–45, Male) = 0.001

Q: Identification FNIR(N, T, L+1) and Investigational FNIR(N, 0, R) under ageing

Dataset: 2018 Mugshot N = 3068801

R: Decline of genuine scores with ageing, with some eventually dropping below typical thresholds shown by the horizontal lines
